YENTLY · BUSINESS SYSTEMS

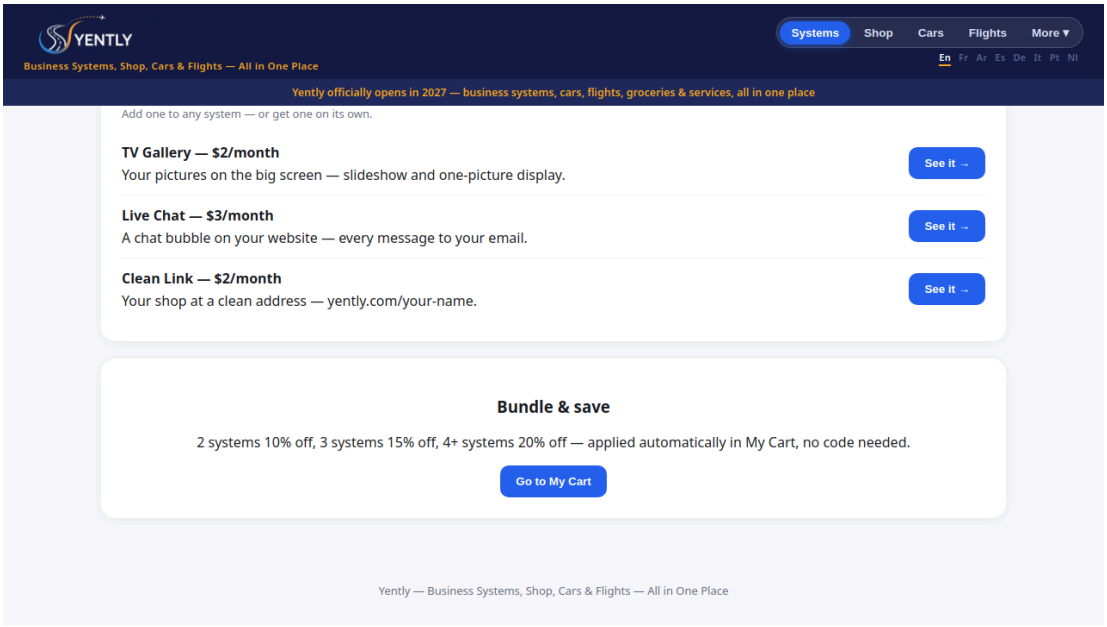

Your Add-Ons
A Step-by-Step Guide

TV Gallery, Live Chat and Clean Link — from buying them to using them.

Yently — Everything you need, gently in one place.

November 2026 · For business owners

This guide walks you through Yently Add-Ons from start to finish: what the three add-ons are, how to buy them, what Yently sets up for you by hand, and how to use each one once it is live. Every step shows you exactly where to click.

The Add-ons section on the Systems hub. TV Gallery $2/month, Live Chat $3/month, Clean Link $2/month — with the Bundle & save card below them.

13. Need help?	12

Keep this guide with your setup email. It covers everything from the first click to the first day your add-ons are live, in the order you will do it.

1. What you get

You already have your system — your restaurant page, your shop, your booking page. Add-Ons are the little extras that sit on top of it. Small things that make the system you already have work even harder for you. There are three of them:

- **TV Gallery — $2/month.** Your pictures, fullscreen, on any TV. Your menu, your dishes, your offers — big on the wall where every customer can see them.
- **Live Chat — $3/month.** A chat bubble on your own website. Your visitors tap it and message you — no account needed, nothing for them to install.
- **Clean Link — $2/month.** A short, clean address for your shop: yently.com/your-name, instead of the long link with a question mark in it.

Add one to any system — or get one on its own. Each add-on is bought the same way as a system, from its own page, into the same cart. They count toward the bundle discount just like a system does (see section 10).

There is no app to install and no hardware to buy. Yently sets each add-on up for you by hand, and emails you your link and your login.

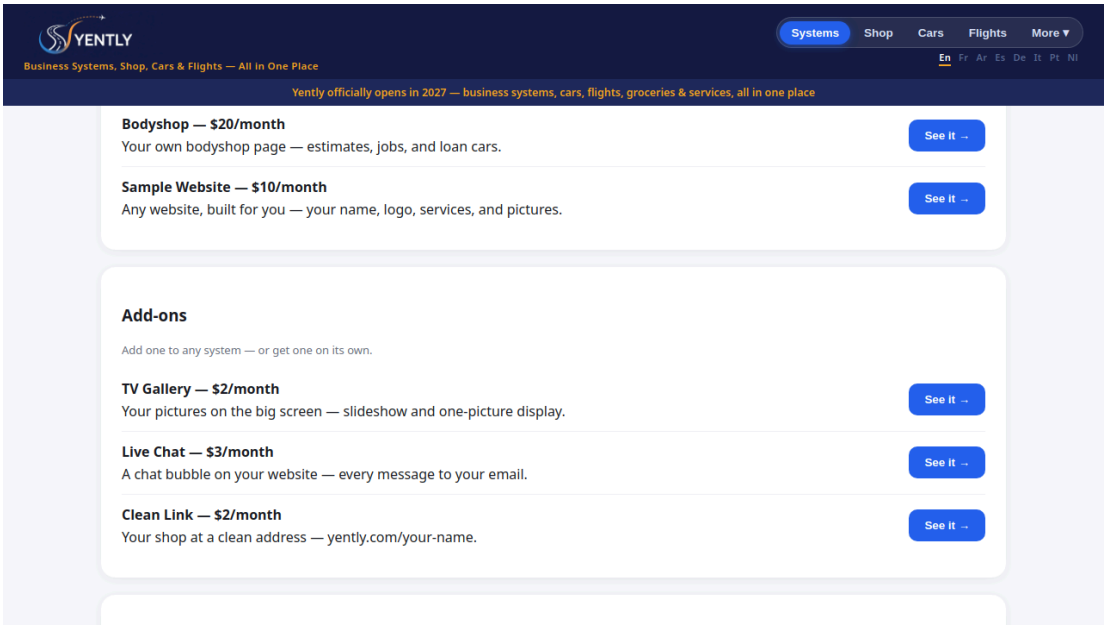

From $2/month First month free on all three. No setup fee. Cancel anytime.

2. How to buy them

Buying takes three clicks. There is no payment to make on the page today, and your first month is free.

Step 1. Find the Add-ons section

Open **yently.com** and tap **Systems** in the top menu. Scroll down to the **Add-ons** section — it sits below the systems, and says “Add one to any system — or get one on its own.” Tap the blue **“See it”** button on the right of the add-on you want.

The Add-ons section. TV Gallery $2/month, Live Chat $3/month, Clean Link $2/month. Tap “See it” to open an add-on’s page.

Step 2. Add it to your cart

On the add-on’s page, tap the gold **“Add to cart — $2/month”** button (TV Gallery and Clean Link) or **“Add to cart — $3/month”** (Live Chat) at the bottom of the page.

One difference for Clean Link: first pick your system from the list, then type your shop’s current slug and the clean name you want. The Add to cart button stays greyed out until you do — it needs those three things to know which shop the link is for.

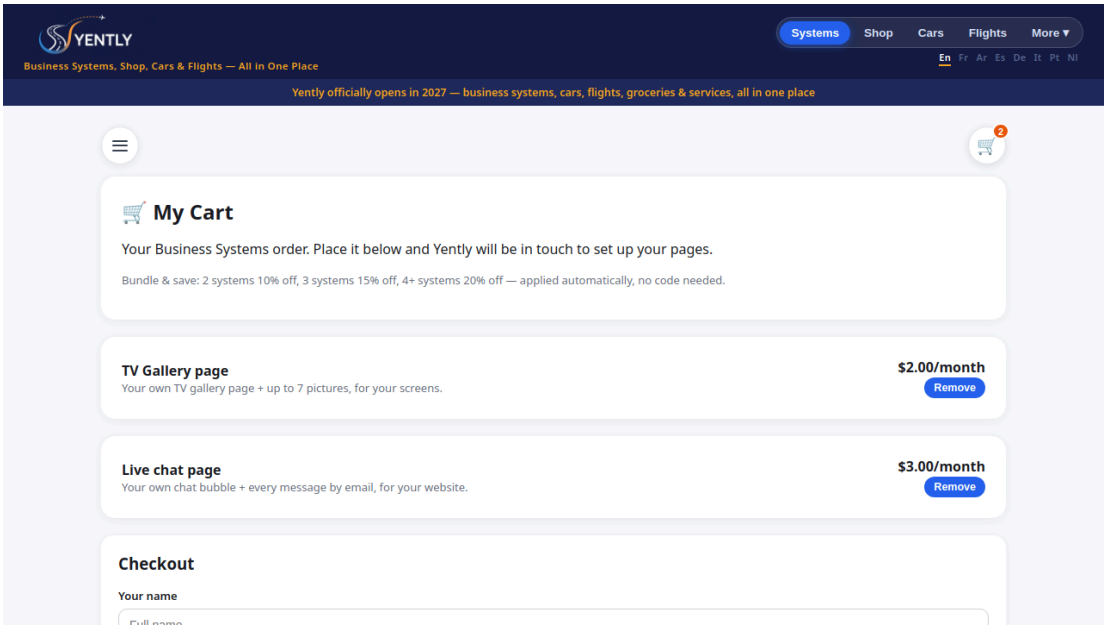

There is a second way in, on the same page: fill in the request form lower down (your name, business name, email and phone) and tap **“Send request”**. Yently will be in touch to set your add-on up.

Step 3. Check out

Tap **“Go to My Cart”** — or the cart icon at the top right. Fill in the checkout form:

- **Full name**, **Email** and **Phone**.
- **Note (optional)** — your business name and city help Yently set your add-on up.

Check the totals — the bundle discount is already applied if you have two or more plans in the cart. Then tap the blue **“Place order”** button.

My Cart checkout. TV Gallery $2.00/month and Live Chat $3.00/month, with the checkout form below. No card details are asked for.

Step 4. What happens next

Your order goes to Yently. There is no payment to make on the page today. Yently sets your add-on up by hand and emails you **your link** and **your login**. Nothing to install, nothing to build.

3. TV Gallery — your pictures on the big screen

Turn any TV into your display. Your pictures fill the whole screen, with your message rolling across the bottom — like the urgent messages on TV.

- **Two ways to show them, both included.** Slideshow plays your pictures one after the other. One picture holds a single picture on a TV — open the same link on each TV and pick which picture it shows, and each TV remembers its picture.
- **Up to 7 pictures** — one picture per TV, so seven TVs can each show a different picture.
- **Change it anytime** — upload, replace, or delete pictures from your own upload page, and the TVs follow. No one has to touch the TV.
- **Works in any TV browser** — no app to install, no stick to plug in. If the TV opens a website, it shows your gallery. Arrow keys on the remote move between pictures.
- **Your own private link** — you'll get your own private link by email. Only people you share it with can open your gallery.

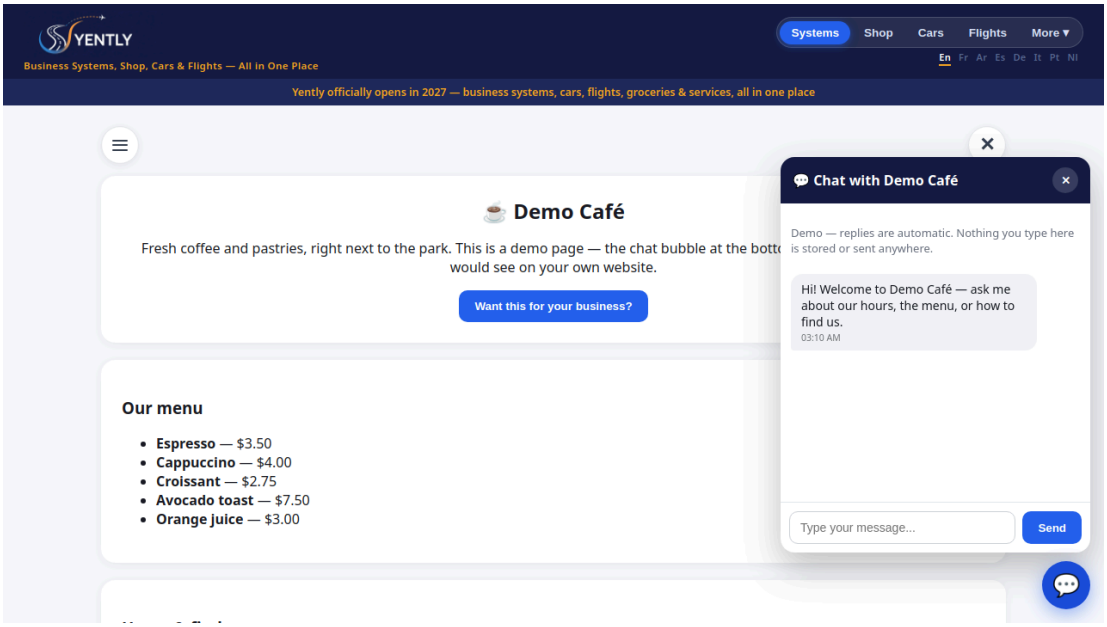

The demo TV gallery, fullscreen. Picture 1 of 7, with the message rolling across the bottom. Tap "View the Gallery" on the TV Gallery page to see it working.

4. Live Chat — talk to your visitors

A chat bubble on your own website. Your visitors tap it and message you — no account needed for them, nothing to install.

- **A chat bubble on your own website** — visitors tap it and message you, without creating an account.
- **Every message reaches you by email** — nothing to install, nothing to watch all day.
- **Your business name on it** — the chat opens with your name and greeting, so visitors know they're talking to you.
- **Works on any website Yently builds for you** — restaurant, shop, barber, dealer, clinic, any of the Business Systems pages.
- **One chat per business** — the chat on your page talks only to you, never to another business.

Yently adds the chat bubble to your website and sets up your owner login by hand. When someone is looking at your page and has a question, they don't leave — they ask you, right there.

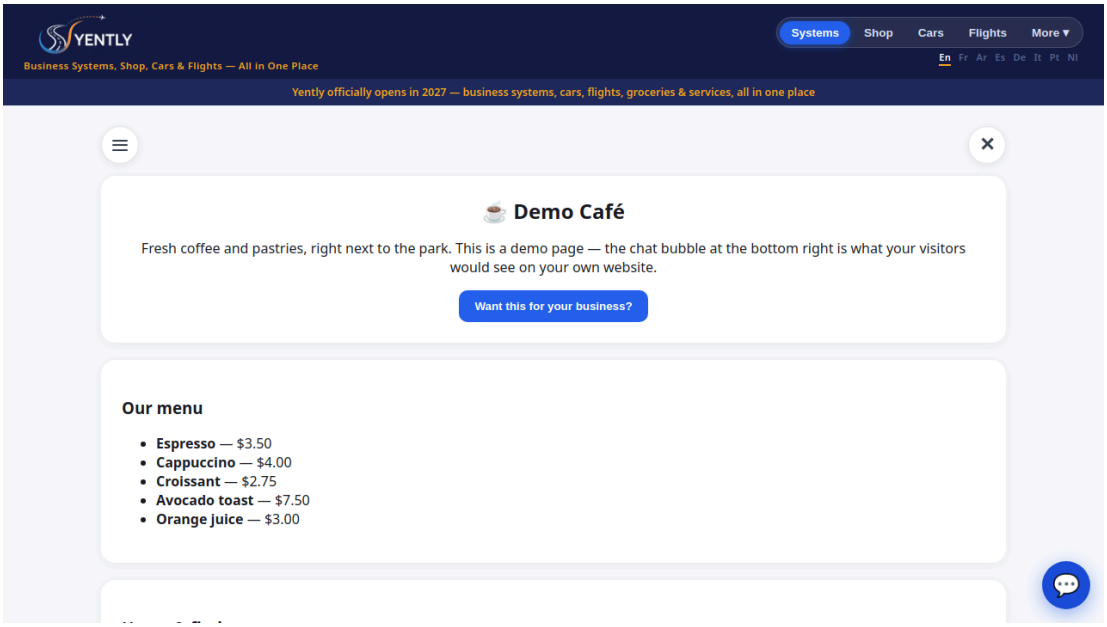

The Demo Café with the chat open. The demo replies are automatic — on your own website, every message reaches you by email. Tap "Open the live demo" on the Live Chat page to try it.

5. Clean Link — a short address for your shop

Your own clean link: **yently.com/your-name** instead of a long link with a question mark in it. Short enough to print on a menu, a card, or a shop window — and easy for your customers to remember and type.

- **A clean link for your shop** — yently.com/your-name, for any Business System (Restaurant, POS, Barbershop, Dealer, Employee, Bodyshop) and for Yently Kids. Your customers open it and land straight on your page.
- **Your old link keeps working** — the clean link is an extra address for the same shop. Nothing you already shared stops working.
- **One link, one shop** — the name you pick is yours alone. First come, first served.
- **Easy to share** — print it, say it, text it. No question mark, no code, nothing to mistype.

It does not replace your system link — it sits beside it. Your system keeps working exactly as it did, and the clean link is simply the short way in.

yently.com/demo-chat. A clean link opening the Demo Café — the same page you would reach through the long link, with the chat bubble at the bottom right. Tap “Open yently.com/demo-chat” on the Clean Link page to see one working.

6. What happens after you order

Yently sets every add-on up by hand — nothing is automatic, and nothing is promised instantly. What you get by email depends on the add-on:

- **TV Gallery** — your own upload page, plus the TV link for your screens.
- **Live Chat** — the chat bubble added to your website, plus your owner login.
- **Clean Link** — your clean link switched on for your shop. Your old link keeps working.

7. Using your TV Gallery

Open your upload page from the email and log in. From there you run the whole gallery:

- **Upload up to 7 pictures** — your dishes, your offers, your menu. Each picture has **Delete** and **Replace**, so you can swap one picture without touching the rest.
- **Write your message** — a short line (up to 200 characters) that rolls across the bottom of the screen in red, under the pictures.
- **Open the TV link on each TV** — in the TV's own browser, no app. Pick **slideshow** to play the pictures one after the other, or **one picture** to hold a single picture on that TV. Each TV remembers its picture.
- **Change it anytime** — upload a new picture or change the message, and the TVs follow. No one has to touch the TV.

8. Using Live Chat

Once Yently has added the bubble to your website, there is nothing for you to run. It just sits at the bottom right of your page, waiting:

- **Visitors tap the bubble**, type their question, and tap **Send**. No account, nothing to install.
- **Every message reaches you by email** — nothing to install, nothing to watch all day. Your business name is on the chat, so visitors know it is you.
- **Your owner login** is set up by Yently, by hand, with your chat. Keep it to yourself.

Try the demo first if you like: the Live Chat page has an **“Open the live demo”** button that opens the Demo Café, with the bubble ready to tap.

9. Using your Clean Link

Your clean link is ready to share the moment Yently switches it on:

- **Share it anywhere** — print it on a menu, a card, or a shop window; say it on the phone; text it to a customer. yently.com/your-name opens your shop.
- **Your old link still works** — anything you already printed or shared keeps opening the same shop.
- **The name is yours alone** — no other shop can take the same clean name. First come, first served.
- **Want a different name?** Ask Yently — the link is set up by hand, so a change is a quick job for Yently, not for you.

10. Bundle & save

Add-ons count toward the bundle discount just like a system does. Your saving is applied automatically in My Cart, no code needed:

Plans in your cart	Discount
2 plans	10% off
3 plans	15% off
4 or more plans	20% off

Worked example. Restaurant $40/month + Clean Link $2/month = $42.00 list. Two plans, so 10% off: you save $4.20 and pay **$37.80/month**.

All three add-ons together are $2 + $3 + $2 = $7.00 list. Three plans, so 15% off: you save $1.05 and pay **$5.95/month**.

> **The cart in section 2** holds TV Gallery ($2) and Live Chat ($3) — $5.00 list, 10% off, **$4.50/month**.

11. Prices at a glance

Add-on	Price	First month
TV Gallery	$2/month	Free
Live Chat	$3/month	Free
Clean Link	$2/month	Free

No setup fee on any add-on. No charge per TV, per click, or per message. Cancel anytime.

12. Why Yently

Add-ons are small prices for small extras — from $2 a month, first month free. No setup fee, no charge per TV or per click, no commission. Cancel anytime.

Yently builds it, hosts it, and keeps it running — and sets each add-on up for you by hand. You just use it: change your pictures, answer your chat, share your clean link. Add another add-on when you want more, for a few dollars a month.

13. Need help?

Each add-on page has its own request form — **“Get your TV gallery”**, **“Get live chat”** or **“Get your clean link”**. Fill in your name, business name, email and phone, write your question in the message box, and tap **“Send request”**. Yently will be in touch to set it up.

> **Your add-ons, in short:** pick an add-on on the Systems hub → Add to cart → Place order → Yently sets it up by hand and emails your link and login → your pictures go on the TV, your visitors chat with you, and your customers type a link they can remember.

Thank you for choosing Yently. Your add-ons are ready when you are — and Yently is one message away if you need a hand.
