YENTLY · BUSINESS SYSTEMS

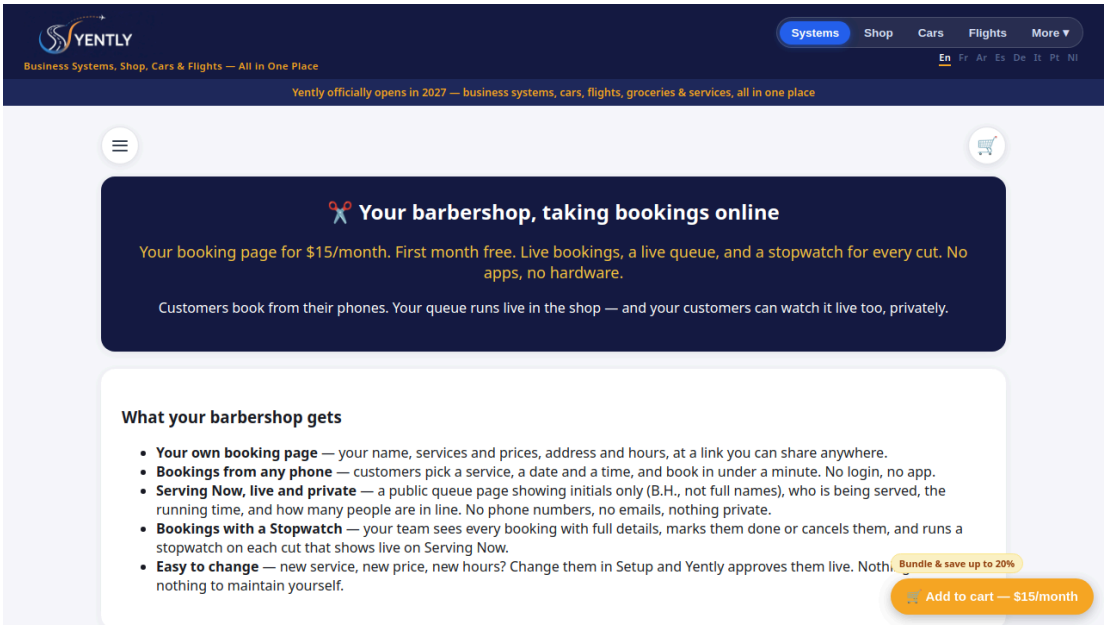

Your Barber System
A Step-by-Step Guide

From buying it to taking your first booking.

Yently — Everything you need, gently in one place.

November 2026 · For barbershop owners

This guide walks you through your Barber System from start to finish: how to buy it, how to set up your barbershop and your services, how customers book, and how the live queue and the stopwatch work. Every step shows you exactly where to click.

Your Barber page. This is the page your customers see the offer on — and the page you buy it from. The gold button at the bottom right adds it to your cart.

Keep this guide with your setup email. It covers everything from the first click to the first booking, in the order you will do it.

1. What you get

Your Barber System is your own booking page on the web, built and hosted by Yently. It has three parts:

- **Your own booking page** — your barbershop's name, services and prices, address and hours, on your own private link.
- **Serving Now, live and private** — a public queue page your customers can watch too. It shows initials only, never names, phone numbers or emails. It shows who is being served, the running time, and how many people are in line.
- **Bookings with a Stopwatch** — your team sees every booking with full details, marks them done or cancels them, and runs a stopwatch on each cut that shows live on Serving Now.

Customers pick a service, a date and a time, and book in under a minute. No login, no app — it works on the phones they already have.

There is no app to install and no hardware to buy. It works on the phones you already have, and Serving Now works on a big screen in the shop too, so the whole shop can see the queue.

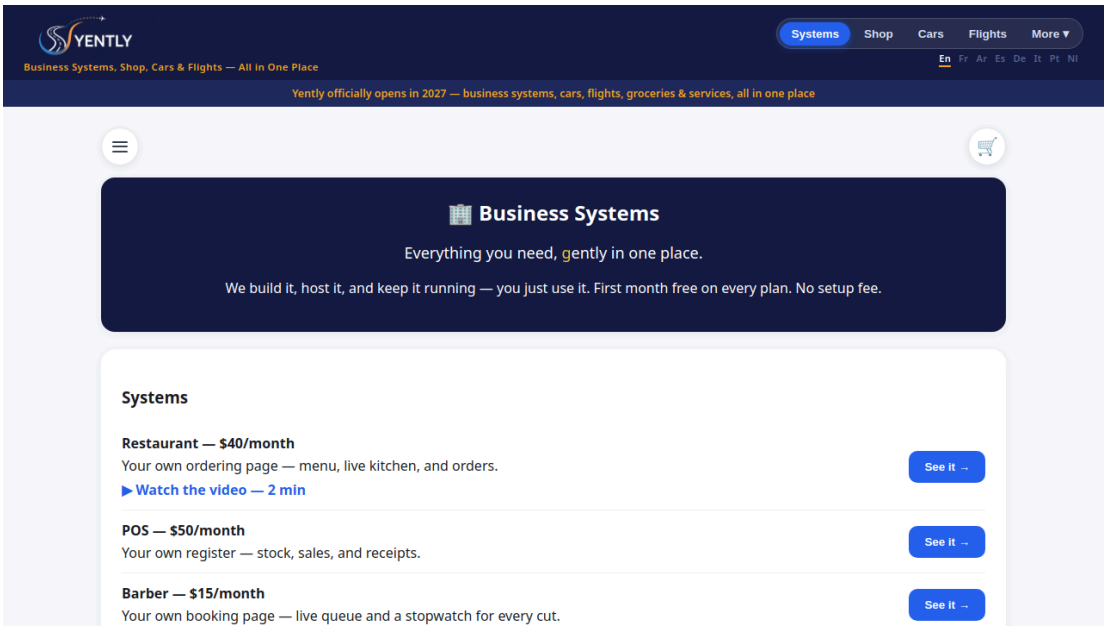

$15/month First month free. No setup fee. No commission on your bookings, ever — you keep everything you earn.

2. How to buy it

Buying takes three clicks. There is no payment to make on the page today, and your first month is free.

Step 1. Find the Barber system

Open **yently.com** and tap **Systems** in the top menu. Barber is the third row — $15/month. Tap the blue **“See it”** button on the right of that row.

The Systems hub. Barber is the third row, at $15/month. Tap “See it” to open the Barber page.

Step 2. Add it to your cart

On the Barber page, tap the gold **“Add to cart — $15/month”** button at the bottom right of the screen.

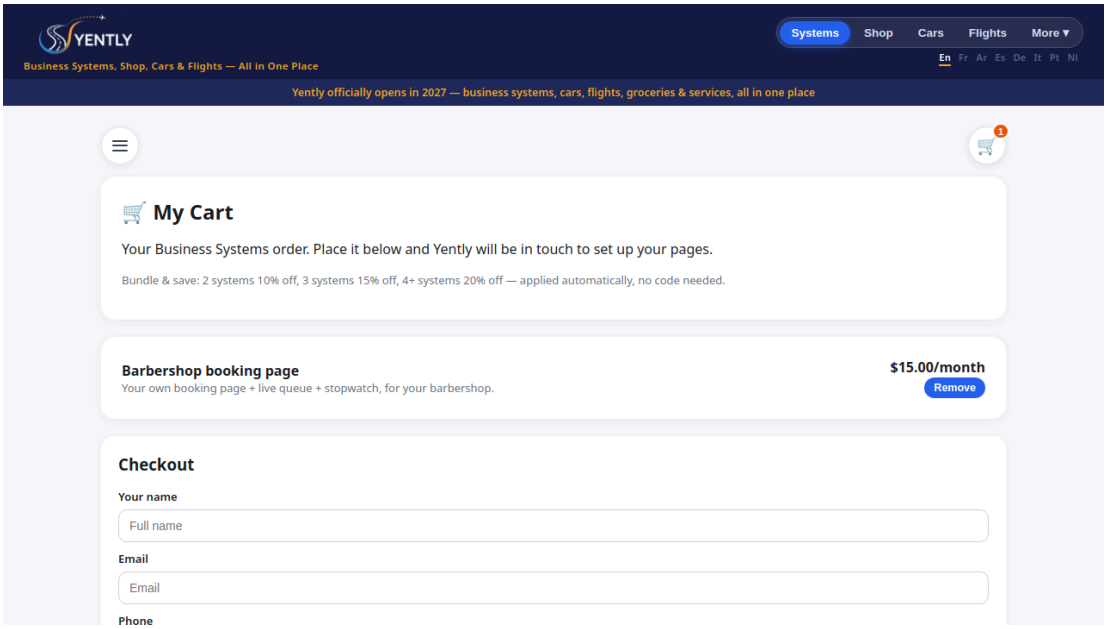

There is a second way in, on the same page: fill in the **“Request your booking page”** form lower down (your name, barbershop name, email and phone) and tap **“Send request”**. Yently will be in touch to set up your booking page.

Step 3. Check out

Tap **“Go to My Cart”** — or the cart icon at the top right. Fill in the checkout form:

- **Full name**, **Email** and **Phone**.
- **Note (optional)** — your business name and city help Yently set your page up.

Check the total: **List total: $15.00/month** and **Total: $15.00/month**. Then tap the blue **“Place order”** button.

My Cart checkout. The “Barbershop booking page” at $15.00/month, and the checkout form below it: your name, email and phone. No card details are asked for.

Step 4. What happens next

Your order goes to Yently. There is no payment to make on the page today. Yently sets your barbershop up and emails you **your own private link**, plus **your own username and password**. Nothing to install, nothing to build.

3. Your first login

Open your private link from the email. The page has **four tabs** at the top: **Book, Bookings, Serving Now, Setup**.

Tap **Setup** and log in with the username and password from your email (the “Setup sign-in” boxes: Username and Password).

> **Two passwords.** Your own Setup login is for you alone. The **employee password** is one shared password your team uses for Bookings. Keep your Setup login to yourself.

4. Set up your barbershop

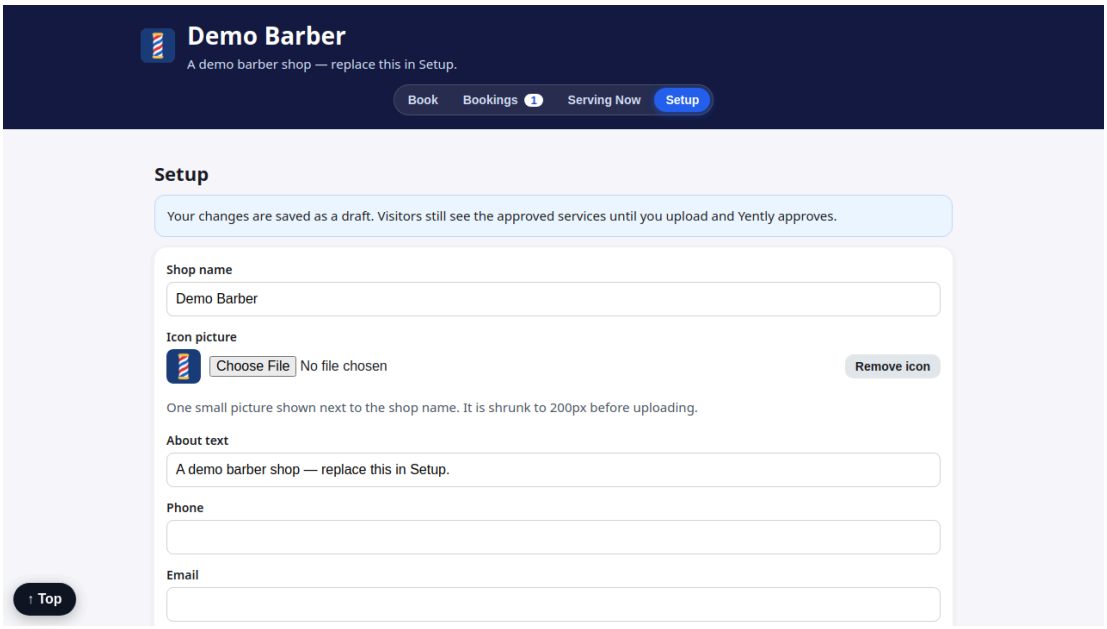

After you log in to the Setup tab, you will see a note at the top:

> “Your changes are saved as a draft. Visitors still see the approved services until you upload and Yently approves.”

That means you can change things safely. Nothing goes live until you say so and Yently approves it.

Fill in these fields:

- **Shop name** — the name shown at the top of your page.
- **Icon picture** — one small picture shown next to your name. Pick a file; it is shrunk to 200px before uploading.
- **About text** — a short line about your barbershop, shown under the name.
- **Phone** and **Email** — shown on your page so customers can reach you.
- **Address** and **Hours** — shown at the top of your booking page.

The Setup tab. Your shop details at the top, with the draft note above them. The services section sits below, on the same tab.

When you are done, tap **“Save draft”**. Your changes are saved as a draft — visitors still see the approved services. When you are happy with everything, tap **“Upload for approval”**. Yently approves it and your changes go live. You will get a confirmation once they are live.

5. Build your services

In the Setup tab, under **Services**, tap **“+ Add service”**. A card appears for the service. Fill it in:

- **Service name** — for example Haircut, Beard trim, Hot towel shave.
- **Price** — the price in dollars.
- **Duration in minutes** — how long the service takes, for example 30.
- **Description** — a short line about the service.
- **Picture** — pick a photo of the service. It uploads at once.

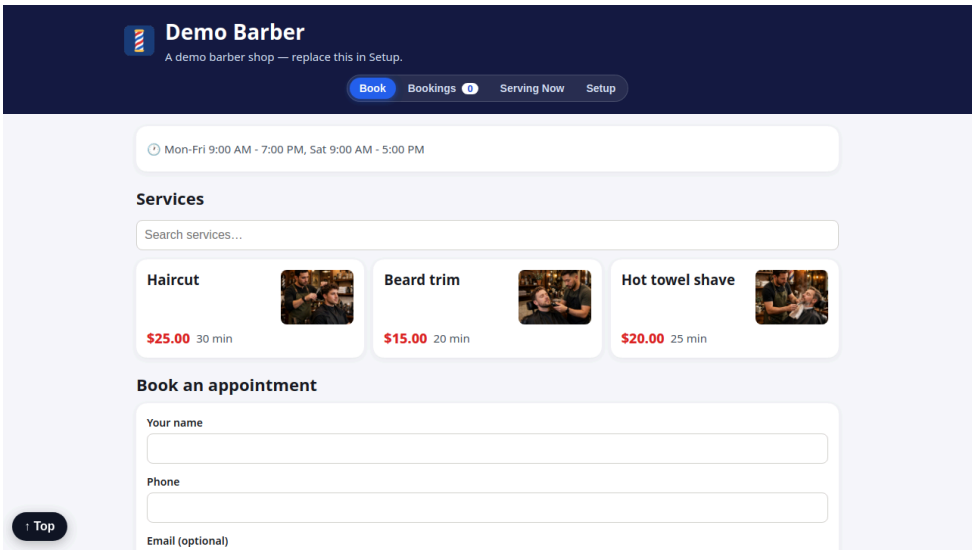

A new service starts as “New service”, $0, 30 minutes — change them to your own. Add one card per service. To remove a service, tap **“Remove service”** on its card. When the services are done, tap **“Save draft”**, then **“Upload for approval”**. Yently approves it and your new services go live right away.

Change a price or add a service any time, the same way: edit it in Setup, save the draft, upload for approval.

6. Your booking page — what your customers see

Your name, about text, phone, email, address and hours sit at the top of the page. Below them:

- **Your services.** Each service shows its picture, its price and how long it takes — for example Haircut, $25.00, 30 min. A **search box** lets customers type a service name to find it fast.
- **Book an appointment.** The booking form sits below the services. Customers fill it in themselves — no login, no app.

Your booking page. The four tabs at the top, your hours, the services with prices and times (Haircut $25.00, 30 min), the search box, and the “Book an appointment” form below.

7. How a customer books

Booking takes under a minute, on the customer’s own phone. It works like this:

1. Fill in **Your name** and **Phone**. **Email** is optional.
2. Pick a **Service** from the list.
3. Pick a **Date** — today is already filled in — and a **Time**.
4. Add a **Note** if you like — it is optional.
5. Tap **“Book appointment”**. The page confirms it: “Booked — booking #” with the service, the date, the time and the customer’s name, and asks them to show their name at the shop when they arrive.

If something is missing, the page says: “Please fill in your name, phone, service, date and time.”

8. Serving Now and Bookings

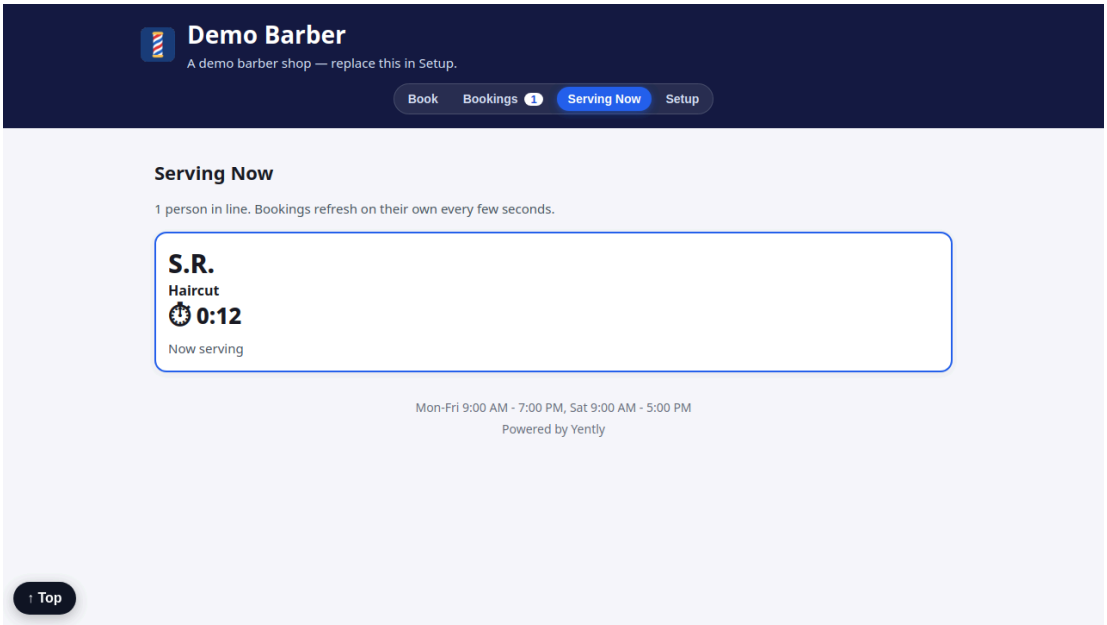

Serving Now is the live queue, and anyone can watch it — but it shows **initials only**. No names, no phone numbers, no emails. Tap the **“Serving Now”** tab:

- The person being served shows their initials, the service, and the running stopwatch time — for example S.R., Haircut, 0:12 — with **“Now serving”** underneath.
- People still waiting show their initials, the service, and **“Waiting”**.
- The top line tells you how many people are in line. When nobody is in line, it says: “Nobody in line right now.”
- The queue refreshes by itself every few seconds.

Bookings is for your team only. Tap the **“Bookings”** tab and enter the **employee password**. Each booking card shows the full details — name, service, date and time, price, duration, phone, email and note — with three buttons:

- **Stopwatch** — tap it when the cut starts, and the running time shows live on Serving Now. Tap **Stop** when the cut is done.
- **Mark done** — moves the booking to Past bookings.
- **Cancel** — asks “Cancel this booking?” first. Tap **“Yes, cancel”** to confirm, or **“Keep it”** to cancel.

The number on the Bookings tab shows how many active bookings you have. Bookings refresh by themselves every few seconds.

Serving Now. One person in line — S.R., Haircut, 0:12 on the stopwatch, “Now serving”. Only initials are shown, never names.

9. The employee password

One shared password unlocks **Bookings**. Every member of staff uses the same one, on any phone.

The password is **set by Yently** and comes with your setup email. There is no place in Setup to change it yourself — if you want it changed, ask Yently and they will change it for you.

The password is never saved on the phone. If the page is reloaded, staff enter it again. Tell your staff the password, and ask Yently to change it if someone leaves.

If your barbershop has no employee password set, Bookings stays open and anyone can see them. Yently sets a password for you, so this does not happen by accident.

10. Add-ons — make it yours for a little more

Each add-on is added the same way as the Barber system — from its own page, into the same cart:

- **Clean Link — $2/month.** Your own short link, yently.com/your-name, instead of the long one. Easier to print on a card, a window or a flyer.
- **TV Gallery — $2/month.** Your pictures on the big screen — a slideshow of your shop's photos on the TV in your barbershop.
- **Live Chat — $3/month.** Chat with visitors right on your page.

> **Bundle & save:** 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off. Your saving is applied automatically, no code needed.

11. Prices at a glance

Plan	Price	First month
Barber system	$15/month	Free
Clean Link	$2/month	Free
TV Gallery	$2/month	Free
Live Chat	$3/month	Free

Bundle: 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off — applied automatically. No setup fee. No commission on your bookings, ever.

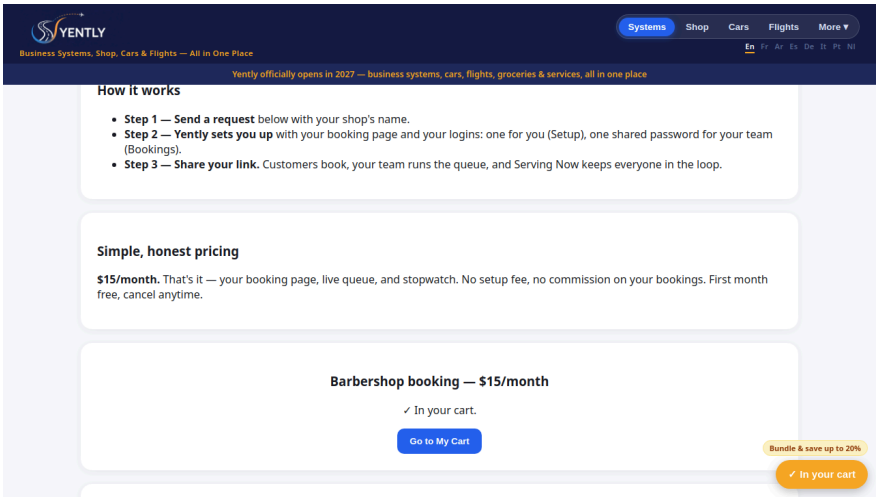

12. Why Yently

Other booking systems charge **more every month** — and still take a cut of every booking.

Yently is **$15 a month**, first month free, no commission, no setup fee. You keep everything you earn.

Yently builds it, hosts it, and keeps it running. You just use it. Change your services any time, and add an add-on when you want more, for a few dollars a month.

Cancel any time.

How it works, in three steps. Tell Yently you want it, get your link and login, share your link and start taking bookings. Simple, honest pricing: $15/month, first month free, cancel any time.

13. Need help?

Use the **“Request your booking page”** form on the Barber page: fill in your name, barbershop name, email and phone, write your question in the message box, and tap **“Send request”**. Yently will be in touch to set up your booking page.

> **Your first booking, in short:** buy it on yently.com → get your link and login by email → log in to Setup → add your services → upload for approval → customers book, your team runs the queue, and Serving Now keeps everyone in the loop.

Thank you for choosing Yently. Your booking page is ready when you are — and Yently is one message away if you need a hand.
