YENTLY · BUSINESS SYSTEMS

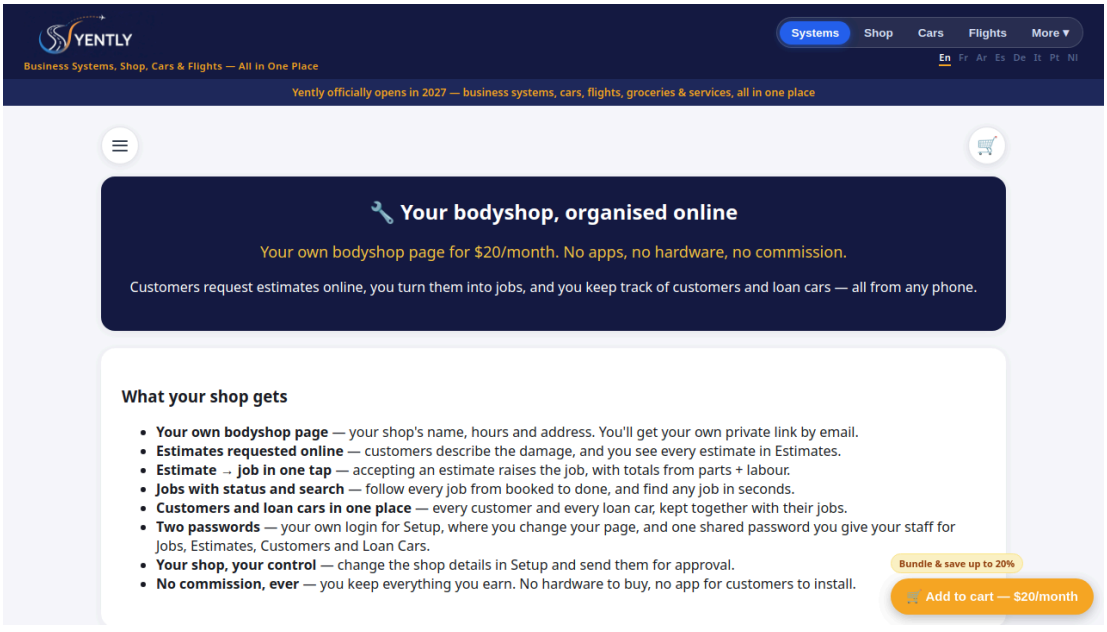

Your Bodyshop System
A Step-by-Step Guide

From buying it to raising your first job.

Yently — Everything you need, gently in one place.

November 2026 · For bodyshop owners

This guide walks you through your Bodyshop System from start to finish: how to buy it, how to set up your shop, how estimates become jobs, and how customers and loan cars stay organised. Every step shows you exactly where to click.

Your Bodyshop page. This is the page your customers see the offer on — and the page you buy it from. The gold button at the bottom right adds it to your cart.

Keep this guide with your setup email. It covers everything from the first click to the first job, in the order you will do it.

1. What you get

Your Bodyshop System is your own bodyshop page on the web, built and hosted by Yently. It has four working parts, all on one page:

- **Your own bodyshop page** — your shop's name, hours and address, on your own private link. Customers open it and ask for an estimate.
- **Estimates** — every request lands in one table, with parts, labour and the total. One tap on Accept turns it into a job.
- **Jobs** — follow every job from booked to done, with search and a status for each one.
- **Customers and loan cars** — every customer and every loan car, kept together with their jobs.

Customers ask for estimates online. No account, no app to install — it works on the phones they already have.

There is no app to install and no hardware to buy. It works on the phones you already have.

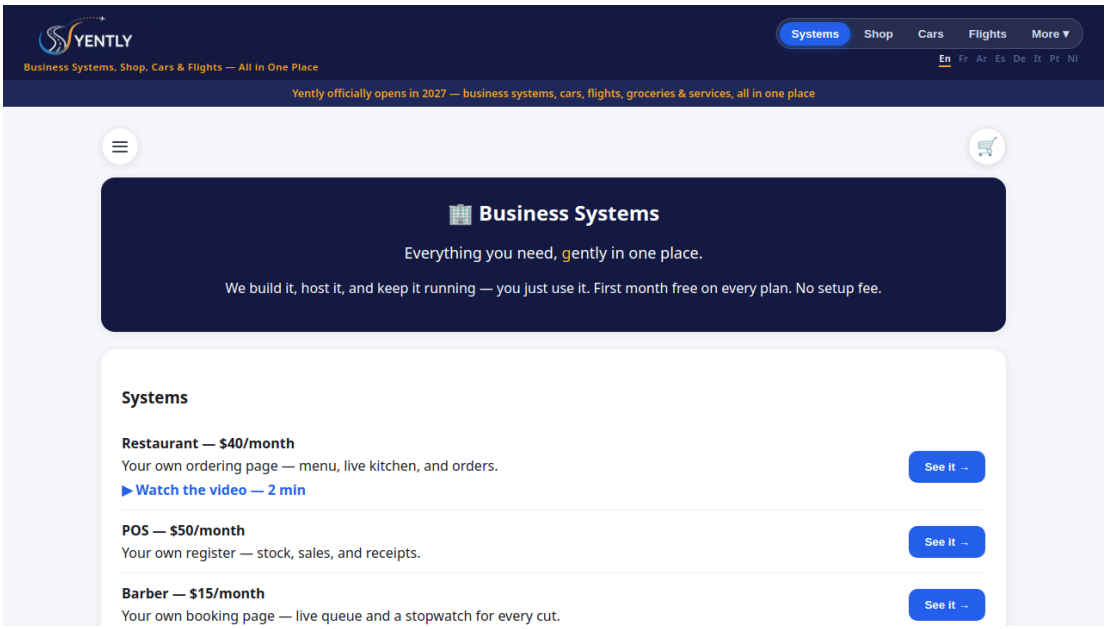

$20/month First month free. No setup fee. No commission on your work, ever — you keep everything you earn.

2. How to buy it

Buying takes three clicks. There is no payment to make on the page today, and your first month is free.

Step 1. Find the Bodyshop system

Open **yently.com** and tap **Systems** in the top menu. Bodyshop is the sixth row — $20/month. Tap the blue **“See it”** button on the right of that row.

The Systems hub. The Bodyshop row sits below the first three, at $20/month. Tap “See it” to open the Bodyshop page.

Step 2. Add it to your cart

On the Bodyshop page, tap the gold **“Add to cart — $20/month”** button at the bottom right of the screen.

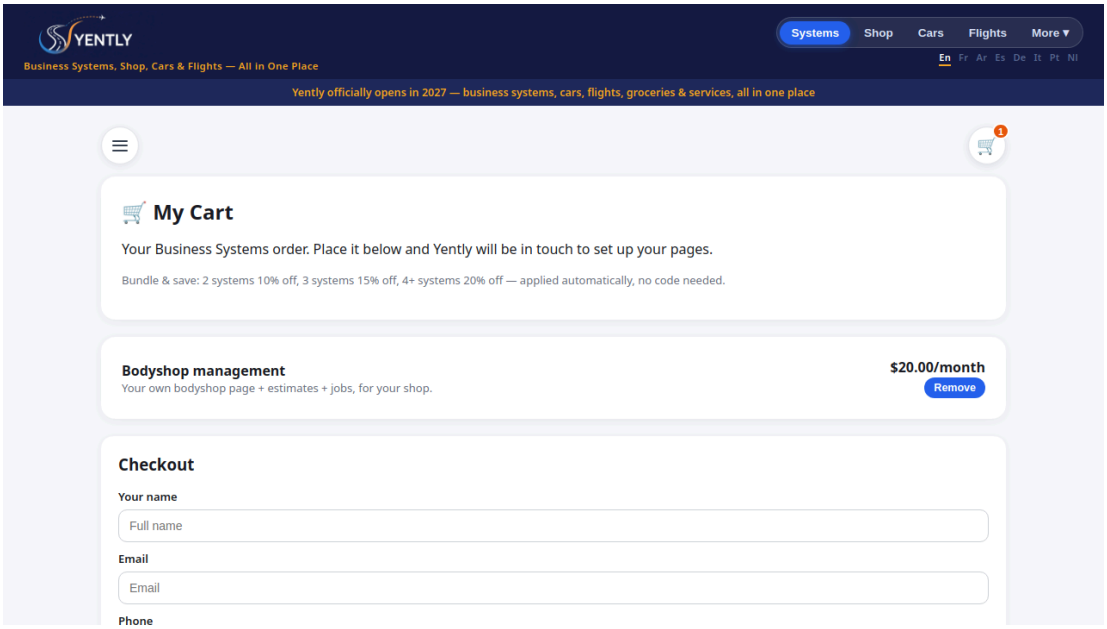

There is a second way in, on the same page: fill in the **“Get your bodyshop online”** form lower down (your name, shop name, email and phone) and tap **“Send request”**. Yently will be in touch to set your bodyshop up.

Step 3. Check out

Tap **“Go to My Cart”** — or the cart icon at the top right. Fill in the checkout form:

- **Full name**, **Email** and **Phone**.
- **Note (optional)** — your shop name and city help Yently set your page up.

Check the total: **List total: $20.00/month** and **Total: $20.00/month**. Then tap the blue **“Place order”** button.

My Cart. Your Bodyshop management plan at $20.00/month, and the checkout form below it. No card details are asked for.

Step 4. What happens next

Your order goes to Yently. There is no payment to make on the page today. Yently sets your bodyshop up and emails you **your own private link**, plus **your own username and password**. Nothing to install, nothing to build.

3. Your first login

Open your private link from the email. The page has **six tabs** at the top: **Request Estimate, Jobs, Estimates, Customers, Loan Cars, Setup**.

Tap **Setup** and log in with the username and password from your email (the “Setup sign-in” boxes: Username and Password).

> **Two passwords.** Your own Setup login is for you alone. The **employee password** is one shared password your staff use for Jobs, Estimates, Customers and Loan Cars. Keep your Setup login to yourself.

4. Set up your bodyshop

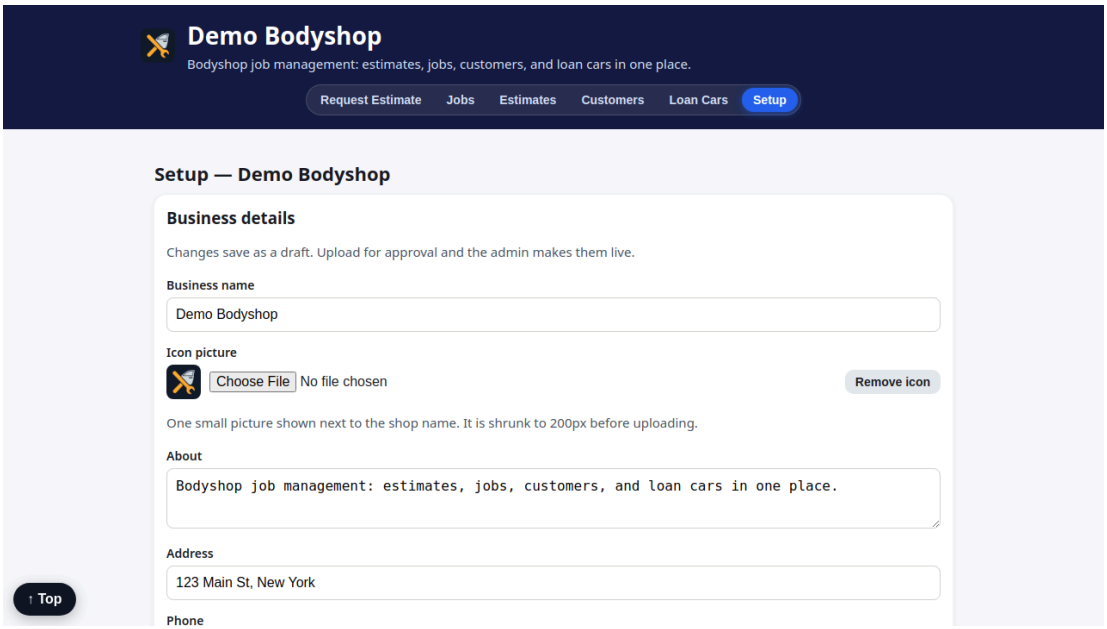

After you log in to the Setup tab, you will see a note at the top:

> “Changes save as a draft. Upload for approval and the admin makes them live.”

That means you can change things safely. Nothing goes live until you say so and Yently approves it.

Fill in these fields:

- **Business name** — the name shown at the top of your page.
- **Icon picture** — one small picture shown next to your name. Pick a file; it is shrunk to 200px before uploading.
- **About** — a short line about your shop, shown under the name.
- **Address**, **Phone** and **Hours** — shown at the top of your page, where customers ask for an estimate.

The Setup tab. Your shop details, with the draft note above them: business name, icon picture, about, address, phone and hours, all on one card.

When you are done, tap **“Save draft”**. Your changes are saved as a draft — visitors still see the approved page. When you are happy with everything, tap **“Upload for approval”**. Yently approves it and your changes go live.

The draft status line under the buttons tells you where things stand: **editing** — not sent yet, **pending** — waiting for Yently to approve it, or **approved** — live now.

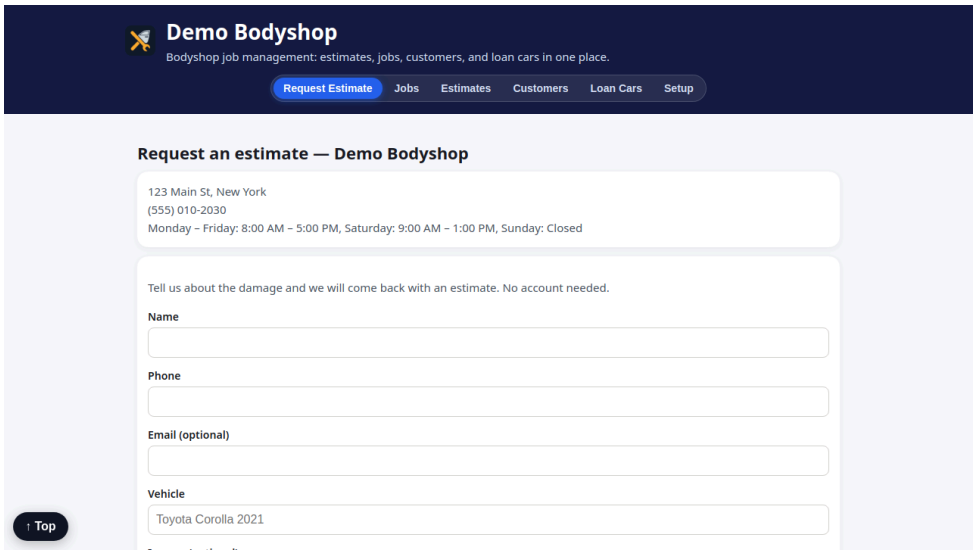

5. Your customers ask for an estimate

Your customers open your link and land on **Request Estimate**. They see your address, phone and hours at the top, then a short form. Only the name, phone and vehicle are required:

- **Name** and **Phone** — so you can reach them.
- **Email (optional)** and **Insurer (optional)**.
- **Vehicle** — for example, Toyota Corolla 2021.
- **Damage / notes (optional)** — what is wrong with the car.

They tap **“Request estimate”** — no account needed. The request lands in your Estimates, and the customer sees a confirmation with their estimate number, like EST-6: the shop will be in touch.

Every estimate that comes in creates a customer record automatically, if the customer is new. You will find them in the Customers tab, ready for the next visit.

The Request Estimate page. Your address, phone and hours at the top, and the short form your customers fill in — name, phone, email, vehicle, insurer and damage notes.

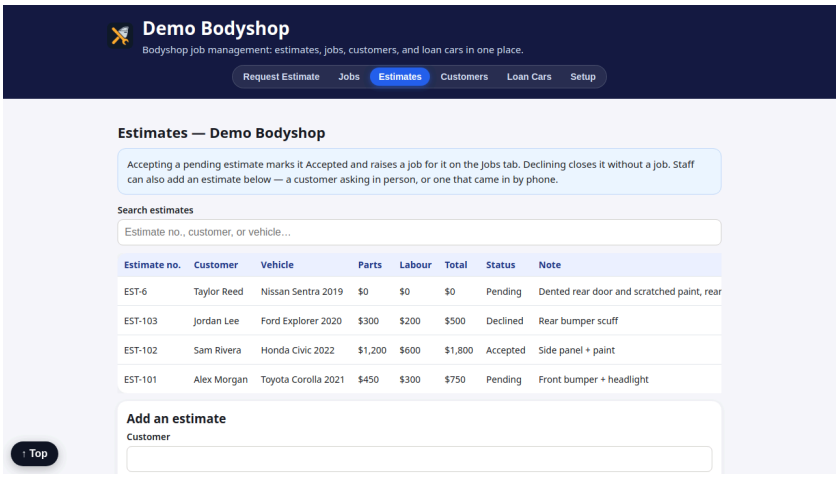

6. Estimates — price them and turn them into jobs

Tap the **Estimates** tab. Every estimate sits in one table: **Estimate no., Customer, Vehicle, Parts, Labour, Total, Status** and **Note**. The total is parts + labour. The search box above the table finds an estimate by its number, a customer, or a vehicle.

For a **Pending** estimate you have two buttons:

- **Accept** — marks it Accepted and raises a job for it on the Jobs tab, with the total already worked out.
- **Decline** — closes it without a job.

Staff can also add an estimate themselves — a customer asking in person, or one that came in by phone. At the bottom, under **“Add an estimate”**, fill in **Customer, Vehicle, Parts ($), Labour ($)** and **Note**, then tap **“Add estimate”**. Customer and vehicle are required.

The Estimates table. Parts and labour add up to the total, and every estimate carries a status — Pending, Accepted or Declined. The “Add an estimate” card sits below the table.

7. Jobs — follow every job to done

The workflow is estimate, then job, then invoice: an accepted estimate becomes a job here, and a finished job is marked Invoiced. The list refreshes on its own every few seconds.

- Each job shows **Job no., Customer, Vehicle, Insurer, Estimate no., Total** and **Status**.
- Change the status in the row — **In progress, Completed** or **Invoiced** — and the job moves on.
- The **search box** finds a job by number, customer or vehicle, and the **Status** list filters the table to one kind of job.
- Need a job that did not start from an estimate? Under **“Add a job”**, fill in **Customer, Vehicle, Insurer, Estimate no. (optional), Total ($)** and **Status**, then tap **“Add job”**.
- **“Delete”** removes a job that was a mistake. It asks first — tap **“Yes, delete”** to confirm, or **“Keep it”** to cancel.

8. Customers and loan cars

Customers. Under **“Add a customer”**, fill in **Name, Phone, Email, Vehicle** and **Insurer**, then tap **“Add customer”**. Tap **“Edit”** on a row to change a customer, or **“Delete”** to remove one — it asks in the page first. The search box finds a customer by name, phone, email or vehicle.

Loan cars. Cars lent to customers while their own car is in the shop. Under **“Add a loan car”**, fill in the **Car number** and the **Vehicle**, then tap **“Add loan car”**. In the table, change the status — **Available** or **On loan** — and the job number, then tap **“Update”**. Setting a car back to Available clears its job.

9. The employee password

One shared password unlocks **Jobs, Estimates, Customers and Loan Cars**. Every member of staff uses the same one, on any phone.

The password is **set by Yently** and comes with your setup email. There is no place in Setup to change it yourself — if you want it changed, ask Yently and they will change it for you.

The password is never saved on the phone. If the page is reloaded, staff enter it again. Tell your staff the password, and ask Yently to change it if someone leaves.

If your shop has no employee password set, the working tabs stay open and anyone with the link can use them. Yently sets a password for you, so this does not happen by accident.

10. Add-ons — make it yours for a little more

Each add-on is added the same way as the Bodyshop system — from its own page, into the same cart:

- **Clean Link — $2/month.** Your own short link, yently.com/your-name, instead of the long one. Easier to print on a card or a window.
- **TV Gallery — $2/month.** Your pictures on the big screen — a slideshow of your finished work on the TV in your shop.
- **Live Chat — $3/month.** Chat with visitors right on your page.

> **Bundle & save:** 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off. Your saving is applied automatically, no code needed.

11. Prices at a glance

Plan	Price	First month
Bodyshop system	$20/month	Free
Clean Link	$2/month	Free
TV Gallery	$2/month	Free
Live Chat	$3/month	Free

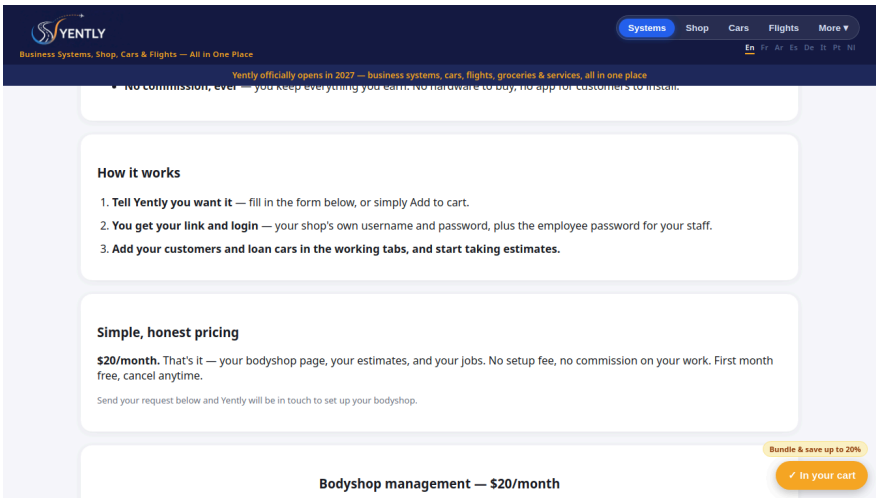

Bundle: 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off — applied automatically. No setup fee. No commission on your work, ever.

12. Why Yently

Your bodyshop page, your estimates, your jobs, your customers and your loan cars — organised in one place for **$20 a month**, first month free, no commission, no setup fee. You keep everything you earn.

Yently builds it, hosts it, and keeps it running. You just use it. Change your shop details any time, and add an add-on when you want more, for a few dollars a month.

Cancel any time.

How it works, in three steps. Tell Yently you want it, get your link and login, add your customers and loan cars and start taking estimates. Simple, honest pricing: $20/month, first month free, cancel any time.

13. Need help?

Use the **“Get your bodyshop online”** form on the Bodyshop page: fill in your name, shop name, email and phone, write about your shop in the message box, and tap **“Send request”**. Yently will be in touch to set up your bodyshop page.

> **Your first job, in short:** buy it on yently.com → get your link and login by email → log in to Setup → add your customers and loan cars → a customer asks for an estimate → price it, tap Accept, and the job is on the Jobs tab.

Thank you for choosing Yently. Your bodyshop page is ready when you are — and Yently is one message away if you need a hand.
