YENTLY · BUSINESS SYSTEMS

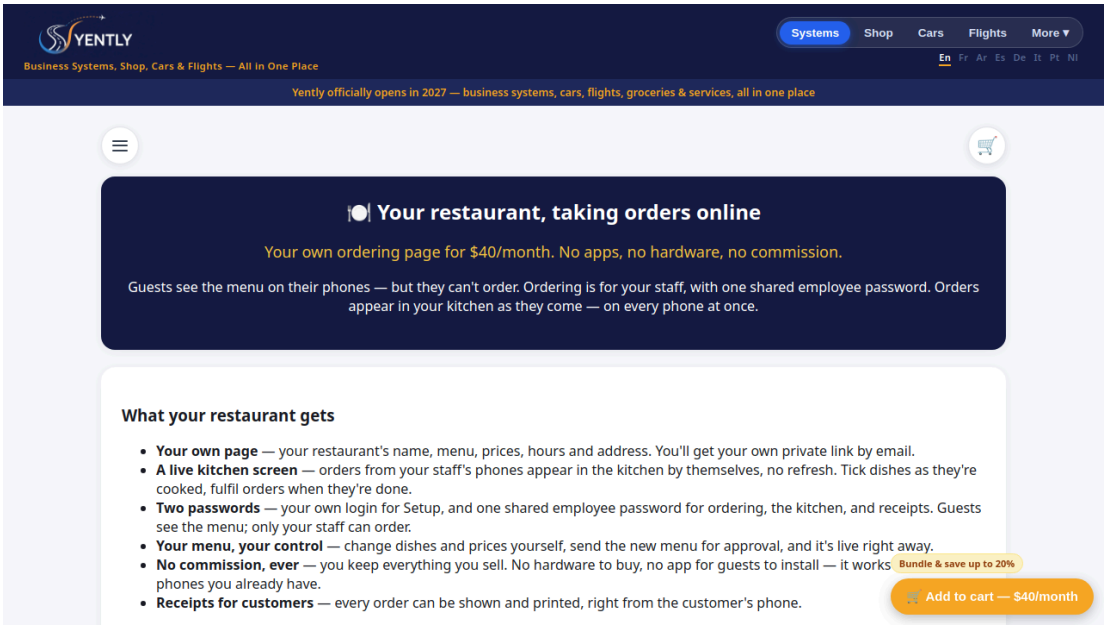

Your Restaurant System
A Step-by-Step Guide

From buying it to taking your first order.

Yently — Everything you need, gently in one place.

November 2026 · For restaurant owners

This guide walks you through your Restaurant System from start to finish: how to buy it, how to set up your restaurant and your menu, how to take orders, and how the kitchen screen works. Every step shows you exactly where to click.

Your Restaurant page. This is the page your guests see the offer on — and the page you buy it from. The gold button at the bottom right adds it to your cart.

Keep this guide with your setup email. It covers everything from the first click to the first order, in the order you will do it.

1. What you get

Your Restaurant System is your own ordering page on the web, built and hosted by Yently. It has three parts:

- **Your own ordering page** — your restaurant's name, menu, prices, hours and address, on your own private link.
- **A live kitchen screen** — orders from your staff's phones appear in the kitchen by themselves, on every phone at once. No refresh, no paper tickets.
- **Receipts for customers** — every order can be shown and printed, right from the customer's phone.

Guests see the menu on their phones but cannot order. Ordering is for your staff, with one shared employee password. That keeps the menu public and the ordering private.

There is no app to install and no hardware to buy. It works on the phones you already have, and it works on a big screen in the kitchen too.

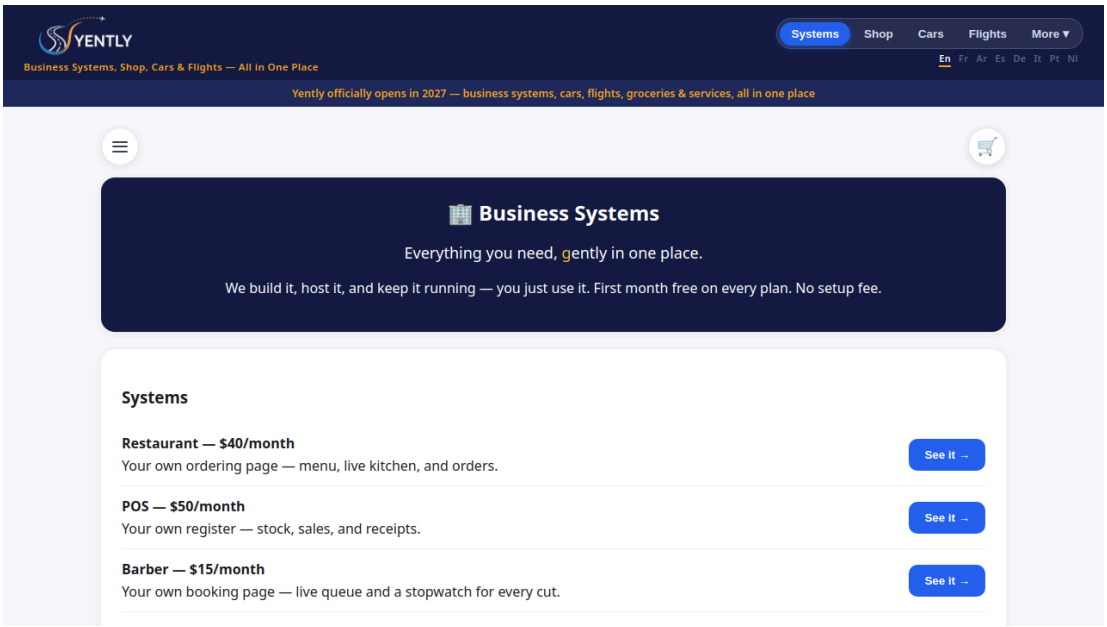

$40/month First month free. No setup fee. No commission on your orders, ever — you keep everything you sell.

2. How to buy it

Buying takes three clicks. There is no payment to make on the page today, and your first month is free.

Step 1. Find the Restaurant system

Open **yently.com** and tap **Systems** in the top menu. Restaurant is the first row — $40/month. Tap the blue **“See it”** button on the right of that row.

The Systems hub. Restaurant is the first row, at $40/month. Tap “See it” to open the Restaurant page.

Step 2. Add it to your cart

On the Restaurant page, tap the gold **“Add to cart — $40/month”** button at the bottom right of the screen.

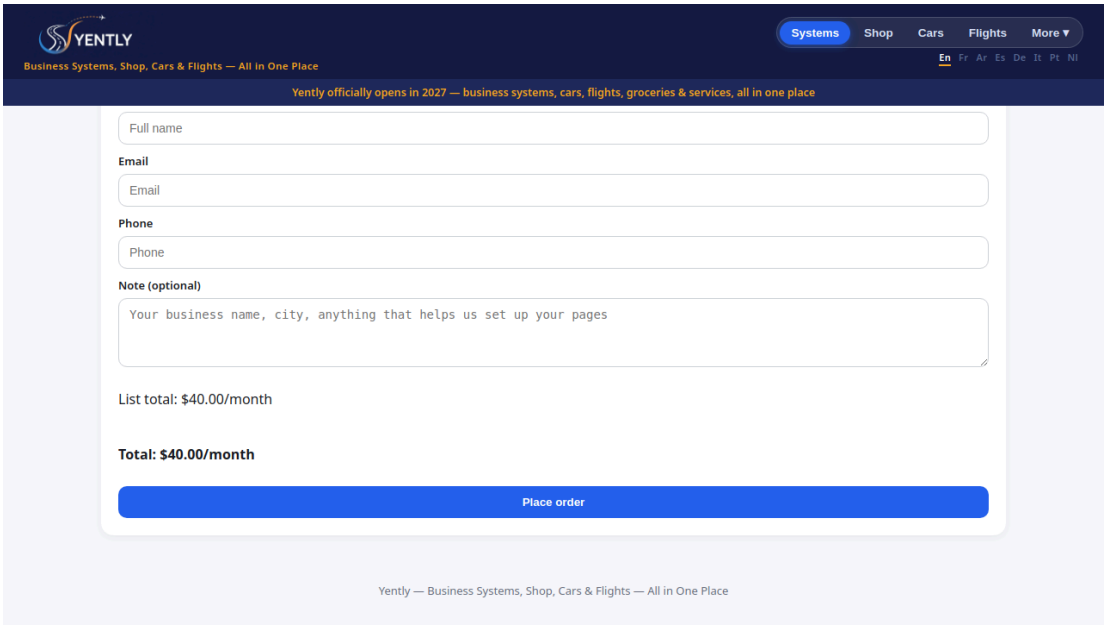

There is a second way in, on the same page: fill in the **“Get your restaurant online”** form lower down (your name, restaurant name, email and phone) and tap **“Send request”**. Yently will be in touch to set your restaurant up.

Step 3. Check out

Tap **“Go to My Cart”** — or the cart icon at the top right. Fill in the checkout form:

- **Full name**, **Email** and **Phone**.
- **Note (optional)** — your business name and city help Yently set your page up.

Check the total: **List total: $40.00/month** and **Total: $40.00/month**. Then tap the blue **“Place order”** button.

My Cart checkout. Your details, the total of $40.00/month, and the blue “Place order” button. No card details are asked for.

Step 4. What happens next

Your order goes to Yently. There is no payment to make on the page today. Yently sets your restaurant up and emails you **your own private link**, plus **your own username and password**. Nothing to install, nothing to build.

3. Your first login

Open your private link from the email. The page has **five tabs** at the top: **Menu, My Order, Kitchen, Receipt, Setup**.

Tap **Setup** and log in with the username and password from your email (the “Setup sign-in” boxes: Username and Password).

> **Two passwords.** Your own Setup login is for you alone. The **employee password** is one shared password your staff use for ordering, the kitchen and receipts. Keep your Setup login to yourself.

4. Set up your restaurant

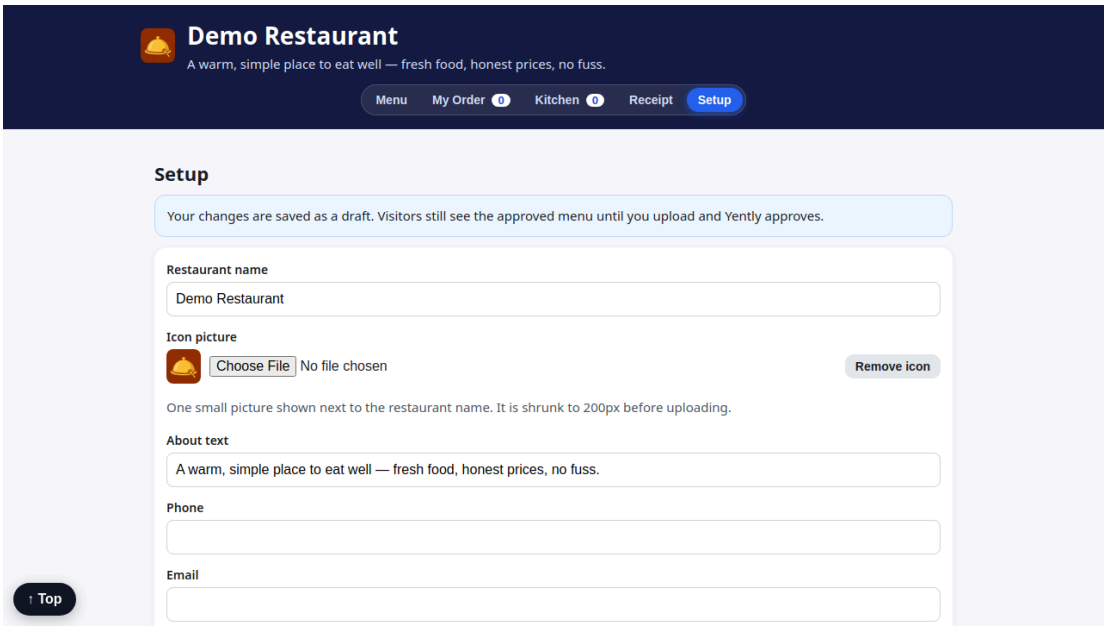

After you log in to the Setup tab, you will see a note at the top:

> “Your changes are saved as a draft. Visitors still see the approved menu until you upload and Yently approves.”

That means you can change things safely. Nothing goes live until you say so and Yently approves it.

Fill in these fields:

- **Restaurant name** — the name shown at the top of your page.
- **Icon picture** — one small picture shown next to your name. Pick a file; it is shrunk to 200px before uploading.
- **About text** — a short line about your restaurant, shown under the name.
- **Phone** and **Email** — shown on your page so guests can reach you.
- **Address** and **Hours** — shown at the top of your menu page.
- **Number of tables** — how many tables your staff can pick from when they take an order. **Number of seats** — how many seats your restaurant has.

The Setup tab. Your restaurant details at the top, with the draft note above them. The menu section sits below, on the same tab.

When you are done, tap **“Save draft”**. Your changes are saved as a draft — visitors still see the approved menu. When you are happy with everything, tap **“Upload for approval”**. Yently approves it and your changes go live. You will get a confirmation once they are live.

5. Build your menu

In the Setup tab, under **Menu**, tap **“+ Add menu item”**. A card appears for the dish. Fill it in:

- **Item name** — the name of the dish.
- **Price** — the price in dollars.
- **Category** — for example Starters, Main courses, Desserts, Drinks. Dishes group together by category on your menu.
- **Description** — a short line about the dish.
- **Picture** — pick a photo of the dish. It uploads at once.

Add one card per dish. To remove a dish, tap **“Remove item”** on its card. When the menu is done, tap **“Save draft”**, then **“Upload for approval”**. Yently approves it and your new menu goes live right away.

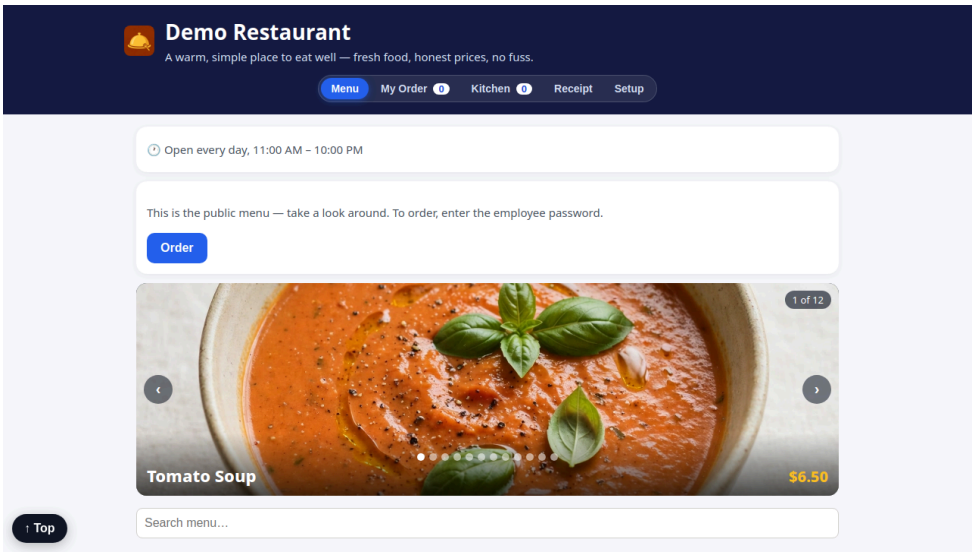

Change a price or add a dish any time, the same way: edit it in Setup, save the draft, upload for approval.

6. Your menu page — what your guests see

Your name, about text, phone, email and hours sit at the top of the page. Below them:

- **A photo slideshow of your dishes.** It moves to the next dish by itself every few seconds. It pauses while a guest is searching, so it never jumps away mid-search.
- **A search box.** Guests type a dish name to find it fast.

Guests can look but not order. The page says: “This is the public menu — take a look around. To order, enter the employee password.” An **“Order”** button sits under that line. Ordering needs the employee password — see section 7.

Your menu page. The five tabs at the top, your hours, the “Order” button, the dish slideshow (Tomato Soup, $6.50, 1 of 12) and the search box.

7. Taking an order

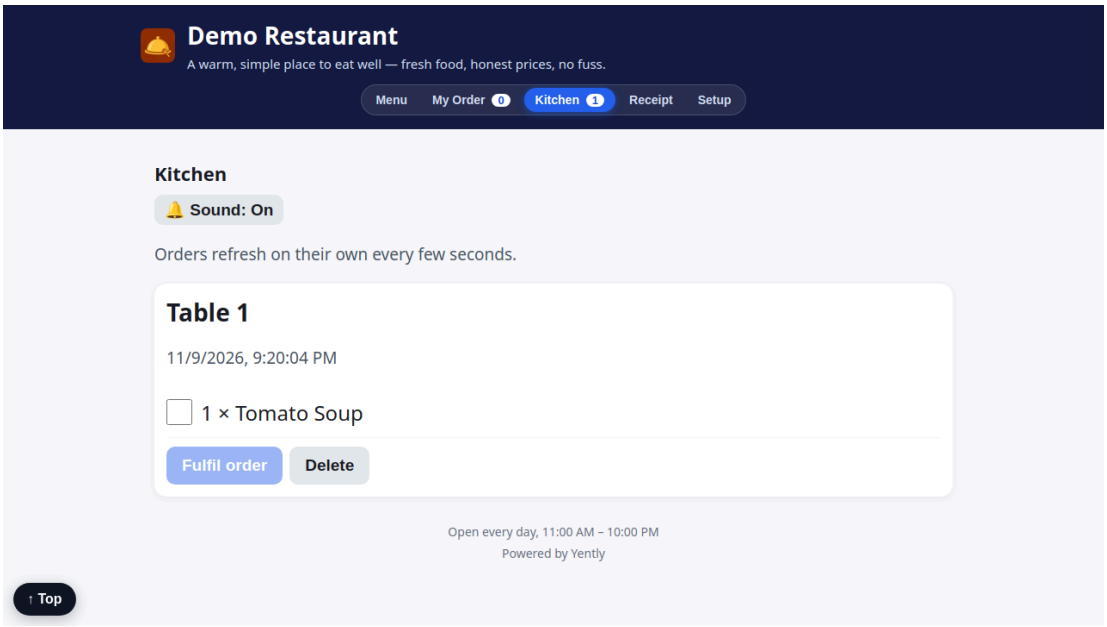

Ordering is done by your staff, on their phones. It works like this:

1. On the menu page, tap **“Order”**. Enter the **employee password** and tap **“Unlock”**. “Add” buttons appear under every dish.
2. Tap **“Add”** on each dish the customer wants. Tap it again to add another of the same dish.
3. Tap the **“My Order”** tab. Check the dishes and the total. If something is wrong, use the **+** and **−** buttons, or **“Remove”**.
4. Choose the table number from the **“Table number”** list.
5. Tap **“Send to kitchen”**. The order is on its way.
6. The **“Receipt”** tab shows the order. Tap **“Print receipt”** to print it, or just show it on the phone.

8. The Kitchen screen

Tap the **“Kitchen”** tab. Orders appear by themselves — no refresh — on every phone at once. It works on a big screen in the kitchen too, so the whole kitchen can see it.

- **A loud beep** sounds when a new order arrives. The **“Sound: On”** button turns the beep off. Tap it again to turn it back on.
- **New orders** carry a **NEW** badge and a gold border for 2 minutes, so they stand out.
- **Cooks tick the box** next to each dish as it is ready.
- The **“Fulfil order”** button stays greyed out until every dish is ticked. Then tap it to mark the order done.
- **“Delete”** removes an order that was a mistake. It asks “Delete this order?” first — tap **“Yes, delete”** to confirm, or **“Keep it”** to cancel.

The Kitchen tab. “Sound: On” at the top, a Table 1 order with one dish to tick, and “Fulfil order” greyed out until every dish is ticked.

9. The employee password

One shared password unlocks **ordering, My Order, Kitchen and Receipt**. Every member of staff uses the same one, on any phone.

The password is **set by Yently** and comes with your setup email. There is no place in Setup to change it yourself — if you want it changed, ask Yently and they will change it for you.

The password is never saved on the phone. If the page is reloaded, staff enter it again. Tell your staff the password, and ask Yently to change it if someone leaves.

If your restaurant has no employee password set, the menu stays open and anyone can order. Yently sets a password for you, so this does not happen by accident.

10. Add-ons — make it yours for a little more

Each add-on is added the same way as the Restaurant system — from its own page, into the same cart:

- **Clean Link — $2/month.** Your own short link, yently.com/your-name, instead of the long one. Easier to print on a menu, a card or a window.
- **TV Gallery — $2/month.** Your pictures on the big screen — a slideshow of your dishes on the TV in your restaurant.
- **Live Chat — $3/month.** Chat with visitors right on your page.

> **Bundle & save:** 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off. Your saving is applied automatically, no code needed.

11. Prices at a glance

Plan	Price	First month
Restaurant system	$40/month	Free
Clean Link	$2/month	Free
TV Gallery	$2/month	Free
Live Chat	$3/month	Free

Bundle: 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off — applied automatically. No setup fee. No commission on your orders, ever.

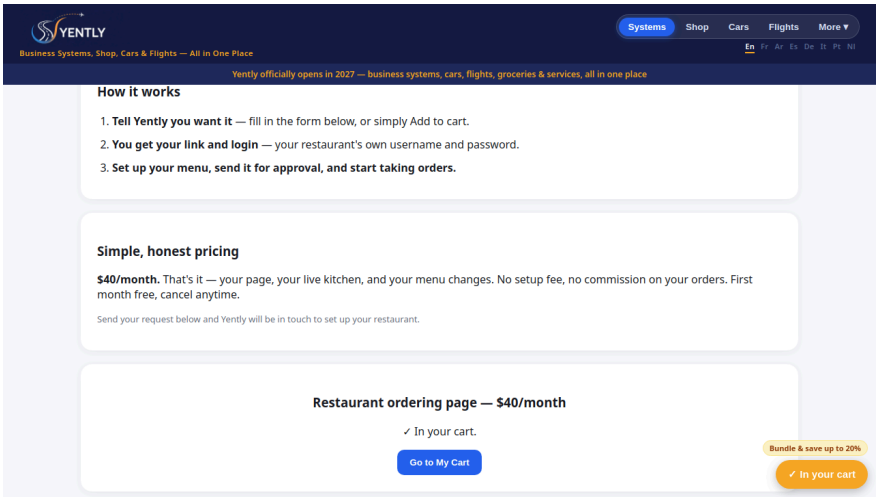

12. Why Yently

Other ordering systems charge **$60, $100, $200 a month** — and still take a cut of every order you sell.

Yently is **$40 a month**, first month free, no commission, no setup fee. You keep everything you sell.

Yently builds it, hosts it, and keeps it running. You just use it. Change your menu any time, and add an add-on when you want more, for a few dollars a month.

Cancel any time.

How it works, in three steps. Tell Yently you want it, get your link and login, set up your menu and start taking orders. Simple, honest pricing: $40/month, first month free, cancel any time.

13. Need help?

Use the **“Get your restaurant online”** form on the Restaurant page: fill in your name, restaurant name, email and phone, write your question in the message box, and tap **“Send request”**. Yently will be in touch to set up your restaurant page.

> **Your first order, in short:** buy it on yently.com → get your link and login by email → log in to Setup → add your dishes → upload for approval → your staff tap Order, pick the dishes, send to kitchen.

Thank you for choosing Yently. Your restaurant page is ready when you are — and Yently is one message away if you need a hand.
