# Your Holiday Rentals System A Step-by-Step Guide

From buying it to taking your first booking online.

Yently — Everything you need, gently in one place.

November 2026 · For holiday hosts

This guide walks you through your Holiday Rentals System from start to finish: how to buy it, how to set up your rentals page and your properties, how bookings reach you, and what your guests see. Every step shows you exactly where to click.

**Your Holiday page.** This is the page your guests see the offer on — and the page you buy it from. The gold button at the bottom right adds it to your cart.

Keep this guide with your setup email. It covers everything from the first click to the first booking, in the order you will do it.

## 1. What you get

Your Holiday Rentals System is your own holiday rentals page on the web, built and hosted by Yently. It has three parts:

- **Your own holiday rentals page** — your business's name, properties, prices, hours and address, on your own private link.
- **Stays booked online** — guests pick a property, an arrival date, nights and guests, and leave their name and phone. You see every booking in Bookings.
- **Nightly and peak rates** — show the standard rate and the high-season peak rate on every property, with the total worked out as guests book.

Guests browse on any phone — no app to install, no hardware to buy. You see every booking the moment it comes in.

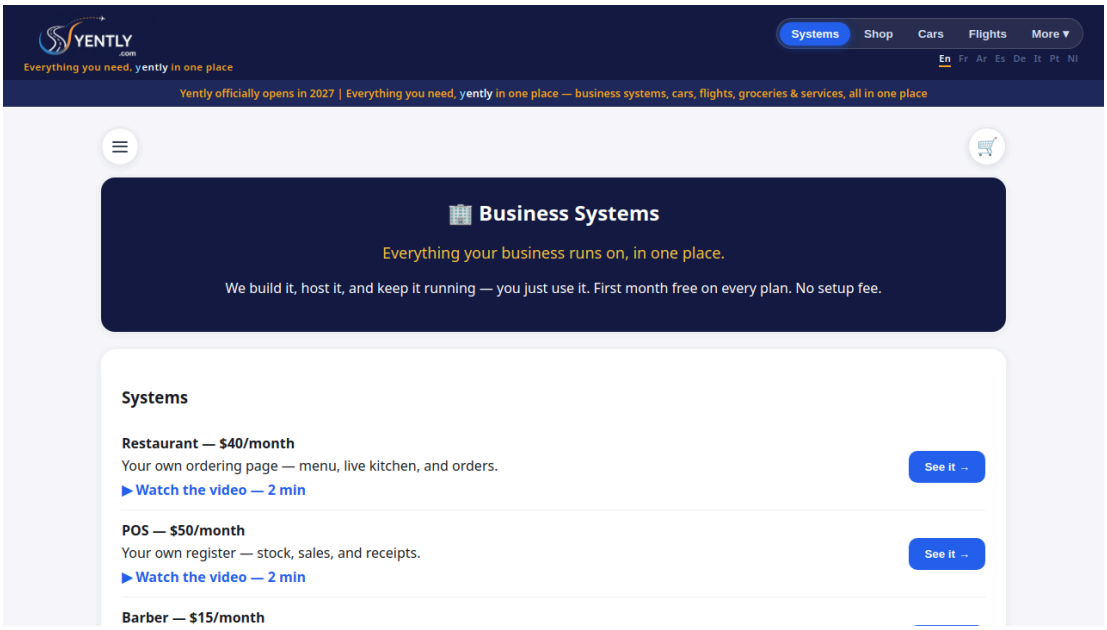

**$20/month** First month free. No setup fee. No commission on your stays, ever — you keep everything you earn.

# 2. How to buy it

Buying takes three clicks. There is no payment to make on the page today, and your first month is free.

## Step 1. Find the Holiday system

Open **yently.com** and tap **Systems** in the top menu. Holiday is the ninth row — $20/month. Tap the blue **“See it”** button on the right of that row.

**The Systems hub.** Holiday is the ninth row, at $20/month. Scroll down to it and tap “See it” to open the Holiday page.

## Step 2. Add it to your cart

On the Holiday page, tap the gold **“Add to cart — $20/month”** button at the bottom right of the screen.

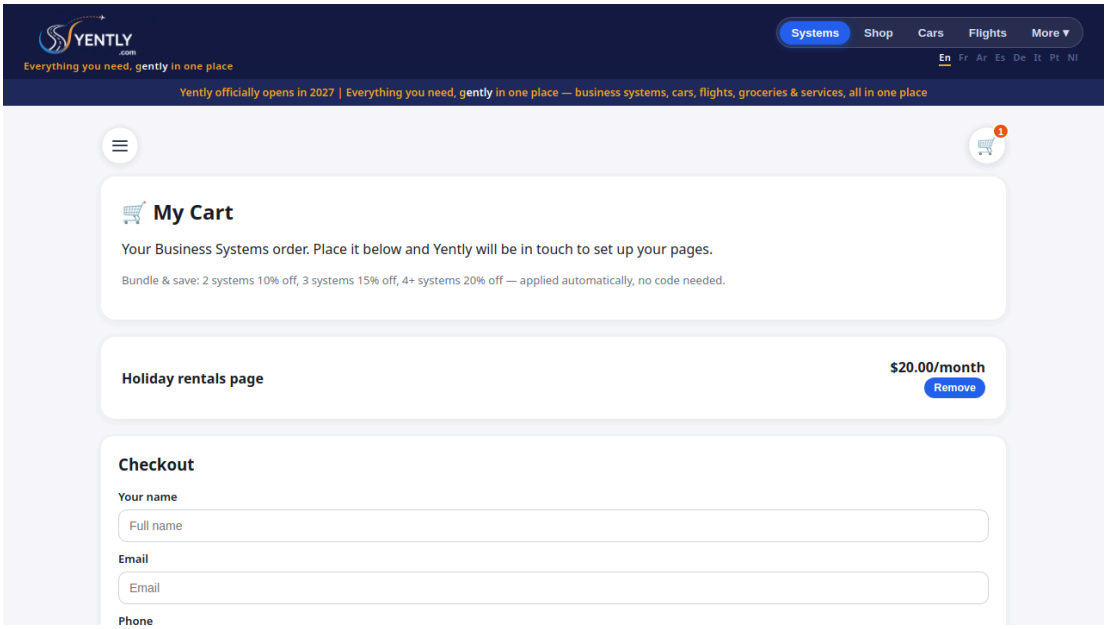

There is a second way in, on the same page: fill in the **“Get your holiday rentals online”** form lower down (your name, business name, email and phone) and tap **“Send request”**. Yently will be in touch to set your holiday rentals page up.

## Step 3. Check out

Tap **“Go to My Cart”** — or the cart icon at the top right. Fill in the checkout form:

- **Full name**, **Email** and **Phone**.
- **Note (optional)** — your business name and city help Yently set your page up.

Check the total: **List total: $20.00/month** and **Total: $20.00/month**. Then tap the blue **“Place order”** button.

**My Cart checkout.** Your Holiday rentals page at $20.00/month, your details, and the blue “Place order” button. No card details are asked for.

## Step 4. What happens next

Your order goes to Yently. There is no payment to make on the page today. Yently sets your holiday rentals page up and emails you **your own private link**, plus **your own username and password**. Nothing to install, nothing to build.

## 3. Your first login

Open your private link from the email. The page has **four tabs** at the top: **Properties, Book, Bookings, Setup**.

Tap **Setup** and log in with the username and password from your email (the “Setup” boxes: Username and Password, then the **“Log in”** button).

> **Two passwords.** Your own Setup login is for you alone. The **employee password** is one shared password your staff use for Bookings. Keep your Setup login to yourself.

## 4. Set up your rentals page

After you log in to the Setup tab, you will see a note at the top:

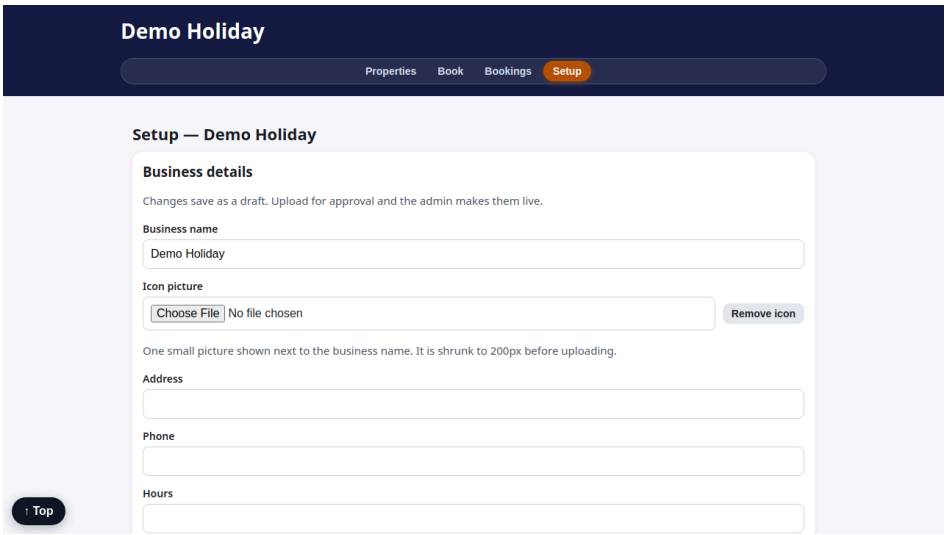

> “Changes save as a draft. Upload for approval and the admin makes them live.”

That means you can change things safely. Nothing goes live until you say so and Yently approves it.

Fill in these fields:

- **Business name** — the name shown at the top of your page.
- **Icon picture** — one small picture shown next to your name. Pick a file; it is shrunk to 200px before uploading.
- **Address** — shown on your page so guests can find you.
- **Phone** and **Hours** — shown on your page so guests can reach you and know when you are open.
- **About** — a short line about your holiday rentals, shown under the name.

Below the fields you will see your draft status: **“Draft status: editing — not sent yet”**, then **“pending — waiting for Yently to approve it”** once you upload, and **“approved — approved, live now”** once Yently approves.

**The Setup tab.** Your business details at the top, with the draft note above them. The Properties section sits below, on the same tab.

When you are done, tap **“Save draft”**. Your changes are saved as a draft. When you are happy with everything, tap **“Upload for approval”**. Yently approves it and your changes go live — the draft status line will then read “approved — approved, live now”.

Your properties work differently from the details above: properties go live right away, with no approval needed. See section 5.

## 5. Add your properties

In the Setup tab, under **Properties**, you will see the note: “Properties go live right away — no approval needed.” Fill in the **“Add a property”** form:

- **Property name** — for example Sea View Apartment. **Reference** — for example HOL-001. **Location** — for example Casablanca, Anfa.
- **Description** — a short line about the property. **Rooms** — how many rooms it has.
- **Nightly rate ($)** — the standard rate per night. **Peak nightly rate ($, optional)** — the high-season rate.
- **Pictures (up to 7)** — pick photos of the property. They show as a slideshow on the property card.

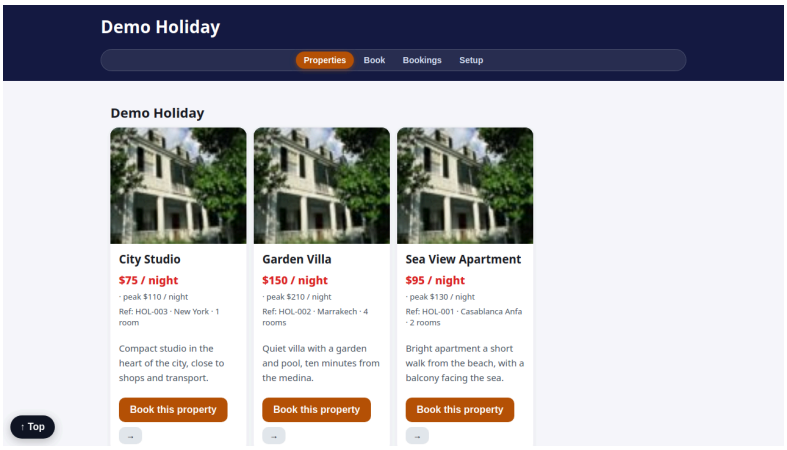

Tap **“Save property”** and it is on your page at once — no approval, no wait. To change a property, tap **“Edit”** on its line in the list; to remove one, tap **“Delete”**. Changes go live right away, the same way.

## 6. Your rentals page — what your guests see

Your name, about text, address, phone and hours sit at the top of the page. Then:

- **One card per property.** A photo slideshow, the name, the price in red per night, the peak rate, and the details — reference, location and rooms. Tap **“Book this property”** on a card to book that property, or tap the arrow to see every detail.

Below the properties: “Like one? Book your stay from the **Book** tab — pay at the property, no payment is taken online.”

**Your properties page.** The four tabs at the top, and your properties with photos, prices, peak rates, references and locations.

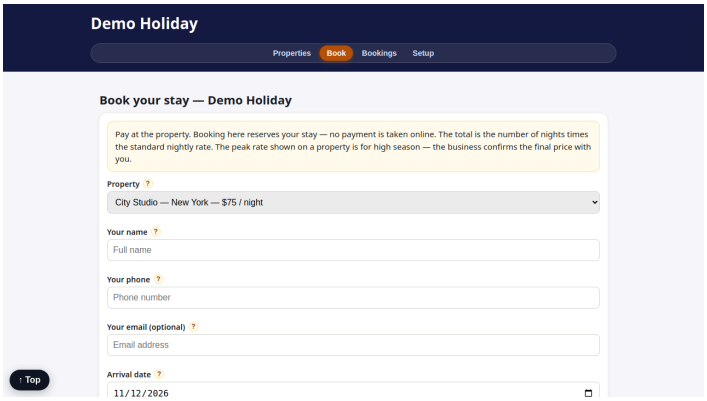

## 7. Bookings and the receipt

On the **Book** tab, the guest picks the **Property**, then their **name**, **phone**, **email (optional)**, **arrival date**, **nights** and **guests**, with an optional **note**. The total shows itself as they type: nights times the standard nightly rate.

Tap **“Confirm booking”** and the page answers with a booking receipt:

- **Reference** — for example HO-000002. The guest keeps this number.
- **Property** — name and nightly rate. **Stay** — arrival to departure, nights and guests.
- **Total** — at the standard rate. **Name** and **phone**.

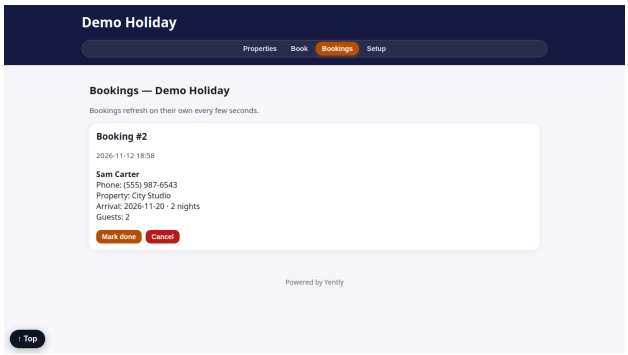

And underneath: “Pay at the property. Find this booking any time in the Bookings tab.” No payment is taken online, and no card details are ever asked for. The peak rate on a property is for high season — you confirm the final price with the guest.

**The Book tab.** Property, name, phone, arrival date, nights and guests — the total works itself out as the guest types. “Confirm booking” gives the receipt.

Tap the **Bookings** tab and enter the employee password (see section 8). Every booking is there, in one list: the booking number, when it was made, the guest’s name and phone, the property, the arrival date and nights, and the guests. The list refreshes on its own every few seconds, so new bookings appear by themselves.

Under each booking, tap **“Mark done”** when it is handled, or **“Cancel”** — it asks “Cancel this booking?” first, so a wrong tap does nothing. A cancelled booking stays in the list, marked **(cancelled)**.

**Bookings.** Booking #2 — Sam Carter, City Studio, arriving 2026-11-20 for 2 nights, 2 guests — with “Mark done” and “Cancel” below it.

## 8. The employee password

One shared password unlocks **Bookings**. Every member of staff uses the same one, on any phone.

The password is **set by Yently** and comes with your setup email. There is no place in Setup to change it yourself — if you want it changed, ask Yently and they will change it for you.

The password is never saved on the phone. If the page is reloaded, staff enter it again. Tell your staff the password, and ask Yently to change it if someone leaves.

If your holiday business has no employee password set, Bookings stays open and anyone can see it. Yently sets a password for you, so this does not happen by accident.

## 9. Add-ons — make it yours for a little more

Each add-on is added the same way as the Holiday system — from its own page, into the same cart:

- **Clean Link — $2/month.** Your own short link, yently.com/your-name, instead of the long one. Easier to print on a card or a window.
- **TV Gallery — $2/month.** Your pictures on the big screen — a slideshow of your properties on the TV in your lounge or reception.
- **Live Chat — $3/month.** Chat with visitors right on your page.

> **Bundle & save:** 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off. Your saving is applied automatically, no code needed.

## 10. Prices at a glance

| Plan | Price | First month |
|---|---|---|
| Holiday rentals system | $20/month | Free |
| Clean Link | $2/month | Free |
| TV Gallery | $2/month | Free |
| Live Chat | $3/month | Free |

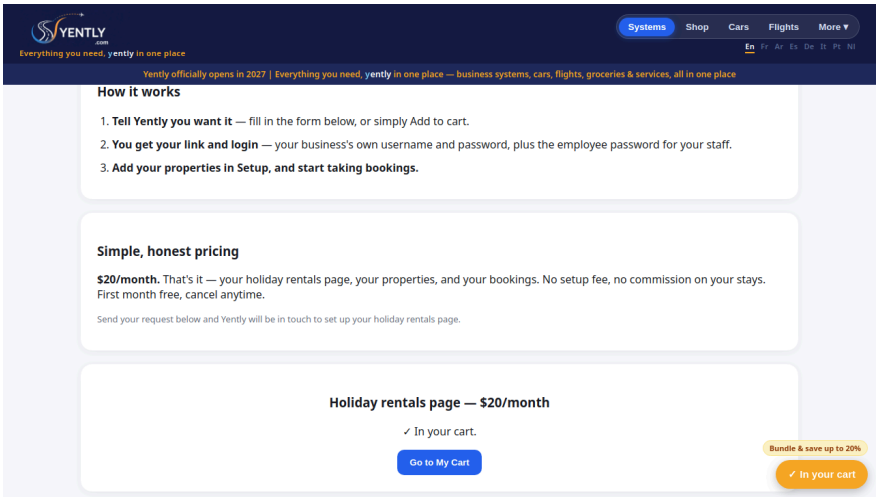

Bundle: 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off — applied automatically. No setup fee. No commission on your stays, ever.

## 11. Why Yently

Your holiday page, your properties, your guests — for **$20 a month**, first month free, no commission, no setup fee. You keep everything you earn.

Yently builds it, hosts it, and keeps it running. You just use it. Add a property or change a price any time, in a minute, and add an add-on when you want more, for a few dollars a month.

Cancel any time.

**How it works, in three steps.** Tell Yently you want it, get your link and login, add your properties and start taking bookings. Simple, honest pricing: $20/month, first month free, cancel any time.

## 12. Need help?

Use the **“Get your holiday rentals online”** form on the Holiday page: fill in your name, business name, email and phone, write your question in the message box, and tap **“Send request”**. Yently will be in touch to set up your holiday rentals page.

> **Your first booking, in short:** buy it on yently.com → get your link and login by email → log in to Setup → add your properties → bookings land in Bookings, and your guests pay at the property.

Thank you for choosing Yently. Your holiday page is ready when you are — and Yently is one message away if you need a hand.
