YENTLY · BUSINESS SYSTEMS

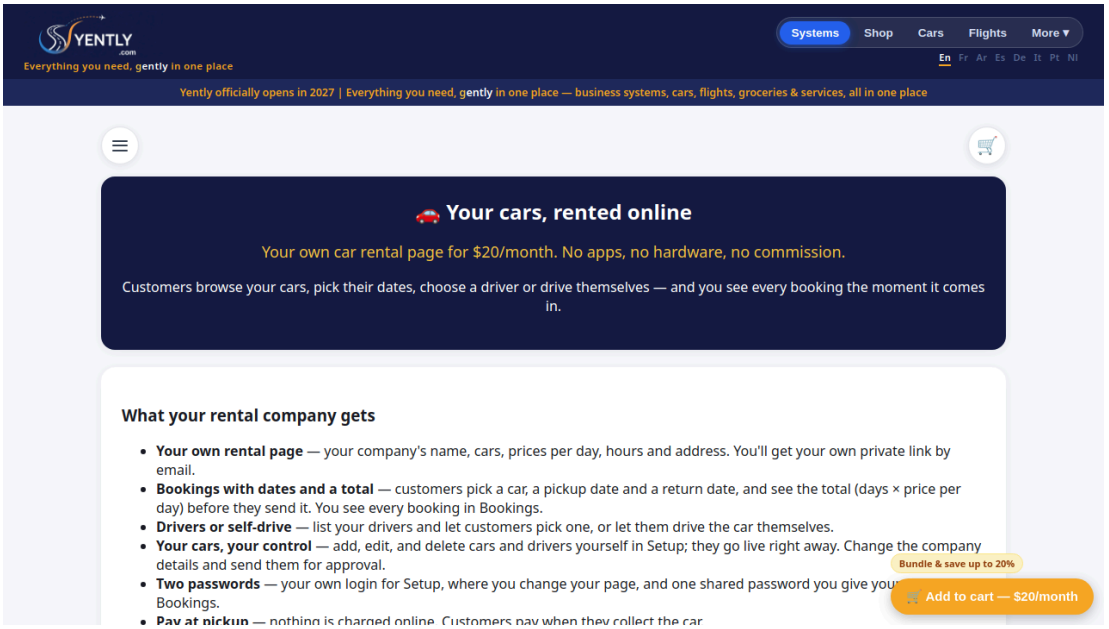

Your Car Rental System
A Step-by-Step Guide

From buying it to taking your first booking.

Yently — Everything you need, gently in one place.

November 2026 · For car rental companies

This guide walks you through your Car Rental System from start to finish: how to buy it, how to set up your rental page, your cars and your drivers, how bookings reach you, and what your customers see. Every step shows you exactly where to click.

Your Car Rental page. This is the page your customers see the offer on — and the page you buy it from. The gold button at the bottom right adds it to your cart.

Keep this guide with your setup email. It covers everything from the first click to the first car rented, in the order you will do it.

1. What you get

Your Car Rental System is your own car rental page on the web, built and hosted by Yently. It has four parts:

- **Your own rental page** — your company's name, cars, prices per day, hours and address, on your own private link.
- **Bookings with dates and a total** — customers pick a car, a pickup date and a return date, and see the total (days × price per day) before they send it. You see every booking in Bookings.
- **Drivers or self-drive** — list your drivers and let customers pick one, or let them drive the car themselves.
- **Pay at pickup** — nothing is charged online. Customers pay when they collect the car.

Customers browse on any phone — no app to install, no hardware to buy. You see every booking the moment it comes in. You add, edit and delete cars and drivers yourself in Setup, and they go live right away.

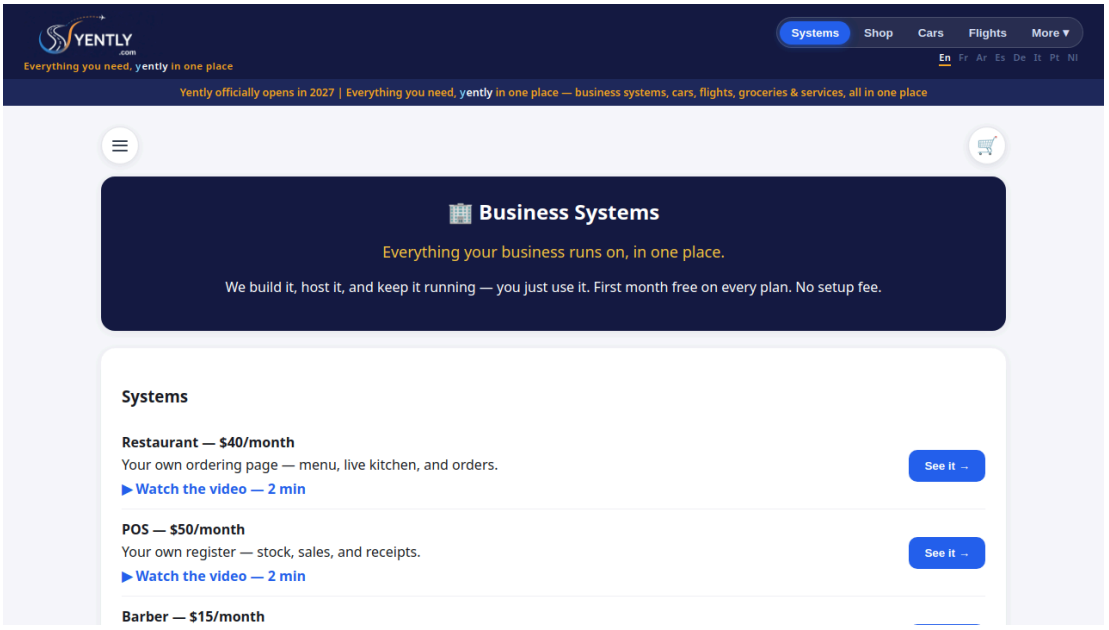

$20/month First month free. No setup fee. No commission on your rentals, ever — you keep everything you earn.

2. How to buy it

Buying takes three clicks. There is no payment to make on the page today, and your first month is free.

Step 1. Find the Car Rental system

Open **yently.com** and tap **Systems** in the top menu. Car Rental is one of the rows — $20/month. Tap the blue **“See it →”** button on the right of that row.

The Systems hub. Car Rental is one of the rows, at $20/month. Tap “See it →” to open the Car Rental page.

Step 2. Add it to your cart

On the Car Rental page, tap the gold **“Add to cart — $20/month”** button at the bottom right of the screen.

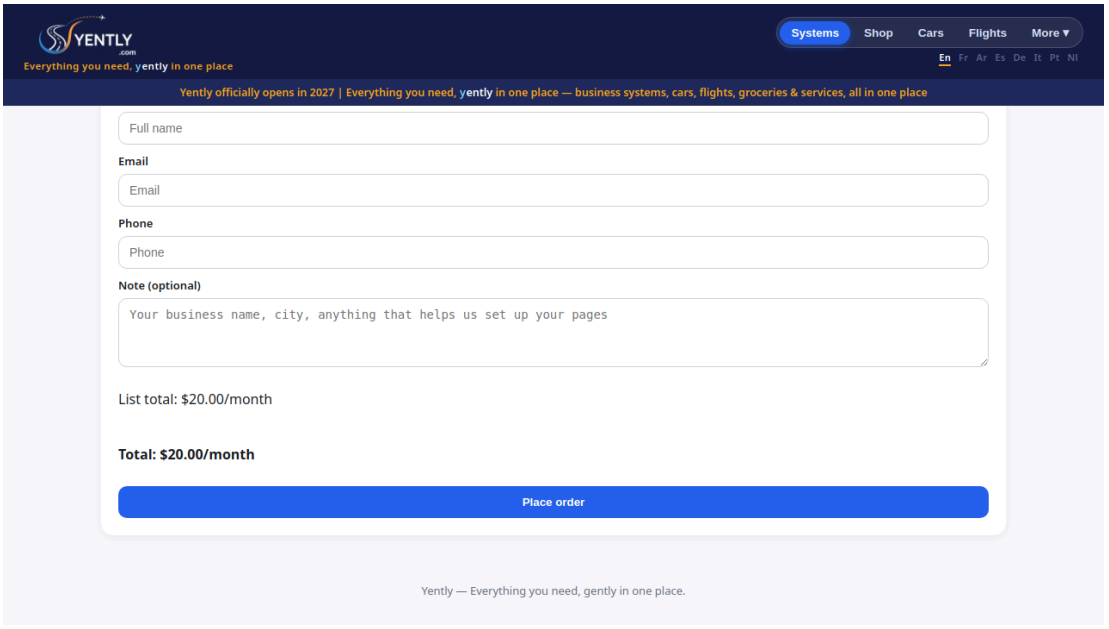

There is a second way in, on the same page: fill in the **“Get your rental company online”** form lower down (your name, rental company name, email and phone) and tap **“Send request”**. Yently will be in touch to set your rental page up.

Step 3. Check out

Tap **“Go to My Cart”** — or the cart icon at the top right. Fill in the checkout form:

- **Full name**, **Email** and **Phone**.
- **Note (optional)** — your business name and city help Yently set your page up.

Check the total: **List total: $20.00/month** and **Total: $20.00/month**. Then tap the blue **“Place order”** button.

My Cart checkout. Your details, the total of $20.00/month, and the blue “Place order” button. No card details are asked for.

Step 4. What happens next

Your order goes to Yently. There is no payment to make on the page today. Yently sets your rental company up and emails you **your own private link**, plus **your own username and password** and the **employee password** for your staff. Nothing to install, nothing to build.

3. Your first login

Open your private link from the email. The page has **four tabs** at the top: **Cars, Book, Bookings, Setup**.

Tap **Setup** and log in with the username and password from your email (the “Setup” boxes: Username and Password, then the **“Log in”** button).

> **Two passwords.** Your own Setup login is for you alone. The **employee password** is one shared password your staff use for Bookings. Keep your Setup login to yourself.

4. Set up your rental page

After you log in to the Setup tab, you will see a note at the top:

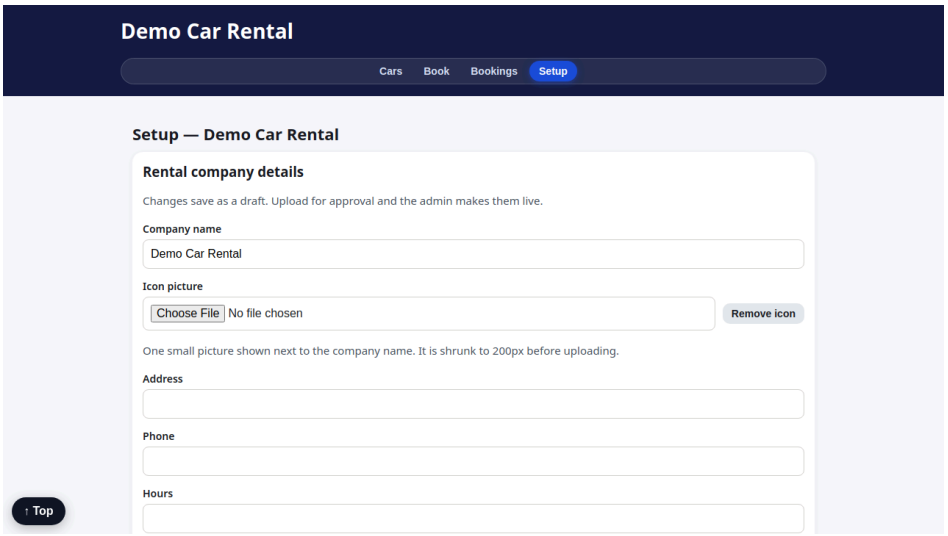

> “Changes save as a draft. Upload for approval and the admin makes them live.”

That means you can change things safely. Nothing goes live until you say so and Yently approves it.

Fill in these fields:

- **Company name** — the name shown at the top of your page.
- **Icon picture** — one small picture shown next to your name. Pick a file; it is shrunk to 200px before uploading.
- **Address** — shown on your page so customers can find you.
- **Phone** and **Hours** — shown on your page so customers can reach you and know when you are open.
- **About** — a short line about your rental company, shown under the name.

Below the fields you will see your draft status: **“Draft status: editing — not sent yet”**, then **“pending — waiting for Yently to approve it”** once you upload, and **“approved — approved, live now”** once Yently approves.

The Setup tab. Your company details at the top, with the draft note above them. The Cars and Drivers sections sit below, on the same tab.

When you are done, tap **“Save draft”**. Your changes are saved as a draft. When you are happy with everything, tap **“Upload for approval”**. Yently approves it and your changes go live — the draft status line will then read “approved — approved, live now”.

Your cars and drivers work differently from the details above: they go live right away, with no approval needed. See section 5.

5. Add your cars and drivers

In the Setup tab, under **Cars**, you will see the note: “Cars go live right away — no approval needed.” Fill in the **“Add a car”** form:

- **Plate, Make, Model and Year** — for example DEMO-001, Toyota, Camry LE, 2021.
- **Seats, Fuel and Transmission** — for example 5 seats, Petrol, Automatic.
- **Price per day** — what the car rents for, per day.
- **Description** — a short line about the car.
- **Pictures (up to 7)** — pick photos of the car. They show as a slideshow on the car card.

Tap **“Save car”** and it is on your page at once — no approval, no wait. To change a car, tap **“Edit”** on its card in the list; to remove one, tap **“Delete”** (it asks first). Changes go live right away, the same way.

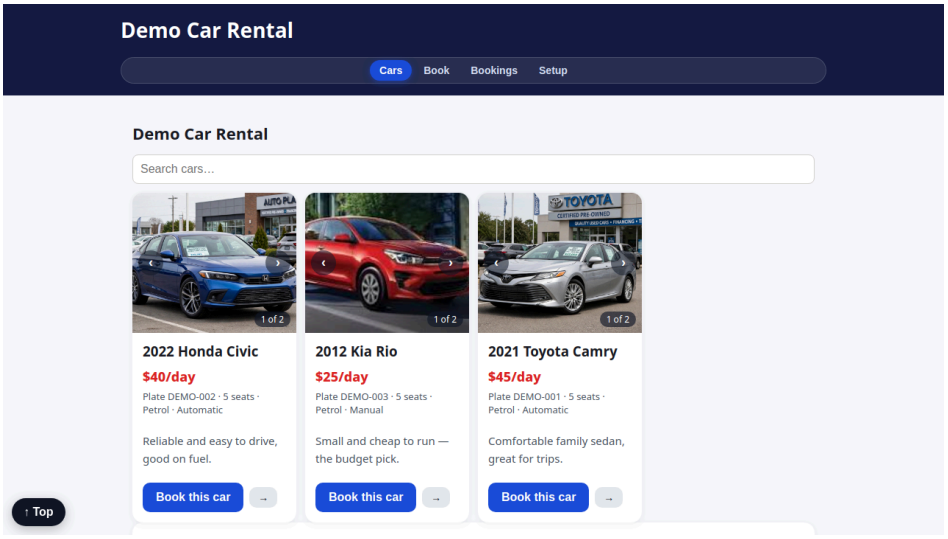

Under **Drivers**, the note reads: “Drivers go live right away — no approval needed. Customers pick a driver, or drive themselves.” Fill in the **“Add a driver”** form — **Name**, **Phone**, **Email (optional)** and **Licence number** — then tap **“Save driver”**. Drivers have the same **Edit** and **Delete** buttons as cars.

6. Your rental page — what your customers see

Your name, about text, address, phone and hours sit at the top of the page, with a search box below them. Then:

- **One card per car.** A photo slideshow, the name, the price per day in red, and the details — plate, seats, fuel, transmission and more. Tap **“Book this car”** on a card to book that car, or tap the arrow to see every detail.

Below the cars: “Found one you like? Book it from the **Book** tab — pick your dates and see the total before you send it. You pay at pickup.”

Your cars page. The four tabs at the top, the search box, and your cars with photos, prices per day, plates, seats, fuel and transmission.

7. Bookings and the receipt

How a customer books

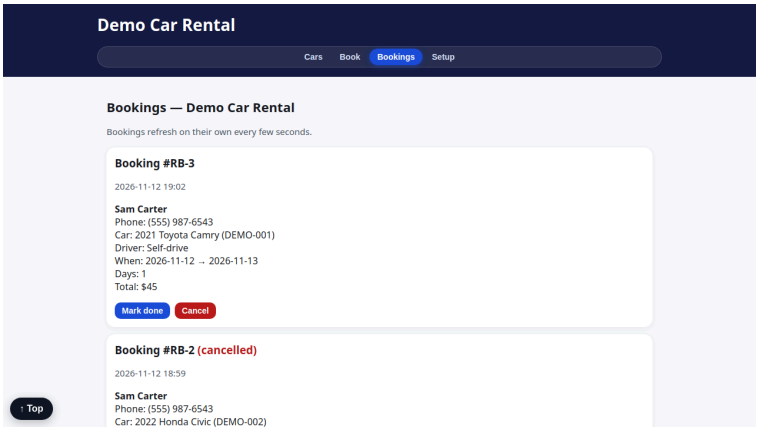

On the **Book** tab, the customer picks the **Car**, then the **Driver** — one of your drivers, or **Self-drive** to drive the car themselves — then their **name**, **phone**, **email (optional)**, **pickup date** and **return date**. The page shows the total before they send it: **“2 days × $45 = $90”**, for example. Tap **“Book this car”** and the page answers with the booking receipt: the rental number (**RB-** followed by the number), the car, the dates, the days and the total, and the note “Pay at pickup — show your name when you collect the car.”

Where bookings land

Tap the **Bookings** tab and enter the employee password (see section 8). Every booking is there, in one list:

- **Booking #RB-** followed by the number, with the date and time it was made.
- The customer’s **name**, **phone** and **email**.
- The **car** (with its plate), the **driver** (or Self-drive), the **dates**, the **days** and the **total**.
- The list refreshes on its own every few seconds, so new bookings appear by themselves.

Under each booking, tap **“Mark done”** when it is handled, or **“Cancel”** — it asks “Cancel this booking?” first, so a wrong tap does nothing. A cancelled booking stays in the list, marked **(cancelled)**.

Bookings. Booking #RB-3 — Sam Carter, 2021 Toyota Camry (DEMO-001), 2026-11-12 to 2026-11-13, 1 day, $45 — with “Mark done” and “Cancel” below it. A cancelled booking shows as “(cancelled)”.

8. The employee password

One shared password unlocks **Bookings**. Every member of staff uses the same one, on any phone.

The password is **set by Yently** and comes with your setup email. There is no place in Setup to change it yourself — if you want it changed, ask Yently and they will change it for you.

The password is never saved on the phone. If the page is reloaded, staff enter it again. Tell your staff the password, and ask Yently to change it if someone leaves.

If your rental company has no employee password set, Bookings stays open and anyone can see it. Yently sets a password for you, so this does not happen by accident.

9. Add-ons — make it yours for a little more

Each add-on is added the same way as the Car Rental system — from its own page, into the same cart:

- **Clean Link — $2/month.** Your own short link, yently.com/your-name, instead of the long one. Easier to print on a card or a window.
- **TV Gallery — $2/month.** Your pictures on the big screen — a slideshow of your cars on the TV in your office or showroom.
- **Live Chat — $3/month.** Chat with visitors right on your page.

> **Bundle & save:** 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off. Your saving is applied automatically, no code needed.

10. Prices at a glance

Plan	Price	First month
Car Rental system	$20/month	Free
Clean Link	$2/month	Free
TV Gallery	$2/month	Free
Live Chat	$3/month	Free

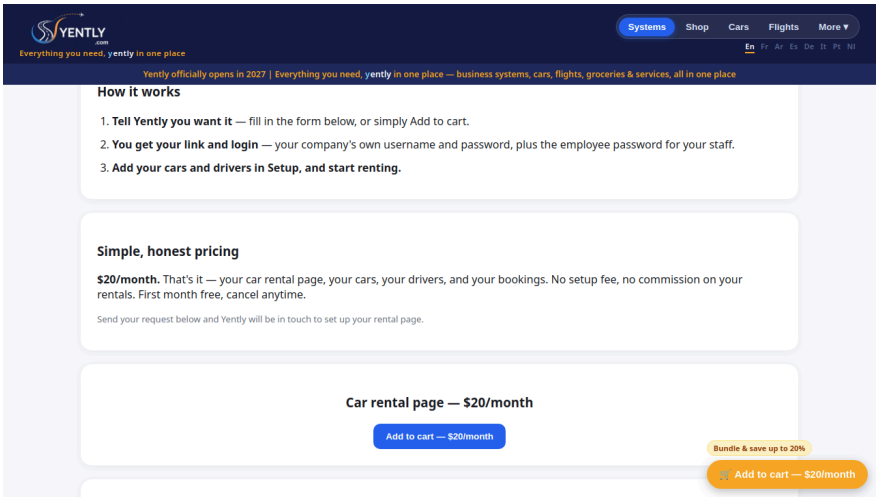

Bundle: 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off — applied automatically. No setup fee. No commission on your rentals, ever.

Why Yently

Your rental page, your cars, your customers — for **$20 a month**, first month free, no commission, no setup fee. You keep everything you earn.

Yently builds it, hosts it, and keeps it running. You just use it. Add a car or a driver, or change a price, any time, in a minute, and add an add-on when you want more, for a few dollars a month.

Cancel any time.

How it works, in three steps. Tell Yently you want it, get your link and login, add your cars and drivers and start renting. Simple, honest pricing: $20/month, first month free, cancel any time.

Need help?

Use the **“Get your rental company online”** form on the Car Rental page: fill in your name, rental company name, email and phone, write your question in the message box, and tap **“Send request”**. Yently will be in touch to set up your car rental page.

> **Your first booking, in short:** buy it on yently.com → get your link and login by email → log in to Setup → add your cars and drivers → bookings land in Bookings, and your customers pay at pickup.

Thank you for choosing Yently. Your rental page is ready when you are — and Yently is one message away if you need a hand.
