YENTLY · YENTLY KIDS

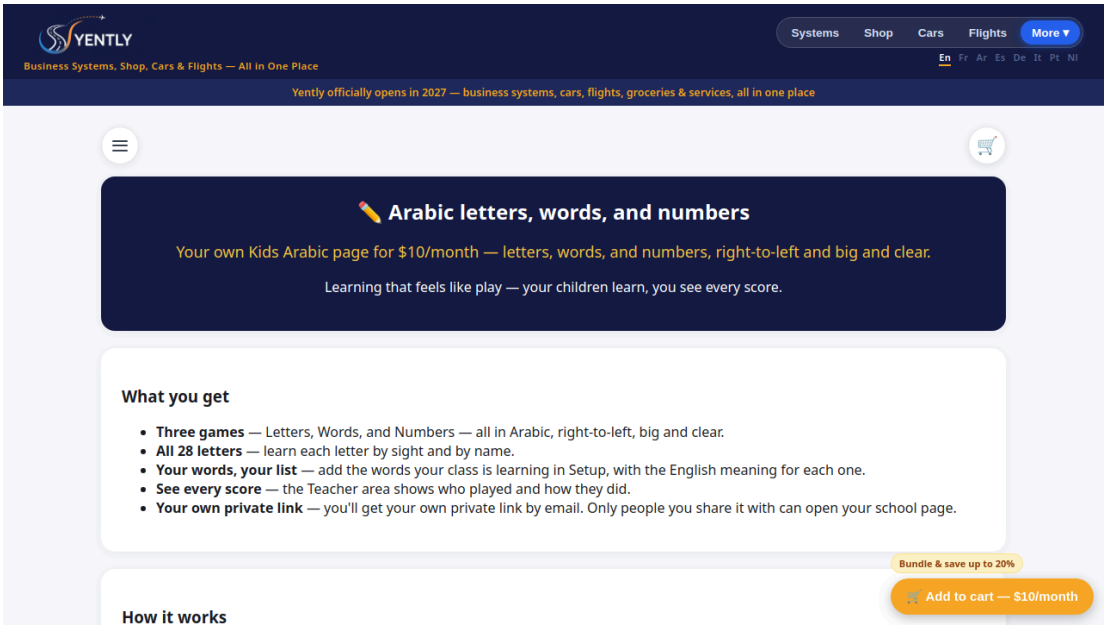

Your Kids Arabic Page
A Step-by-Step Guide

From buying it to your child’s first game.

Yently — Everything you need, gently in one place.

November 2026 · For parents and teachers

This guide walks you through your Kids Arabic page from start to finish: how to buy it, how to add your students and the words your class is learning, how the games work, and how the Teacher area shows every score. Every step shows you exactly where to click.

Your Kids Arabic page. This is the page you buy it from — and the page that explains what your children get. The gold button at the bottom right adds it to your cart.

Keep this guide with your setup email. It covers everything from the first click to the first game, in the order you will do it.

1. What you get

Your Kids Arabic page is your own online Arabic school for children, built and hosted by Yently. It has three parts:

- **Three games** — Letters, Words, and Numbers — all in Arabic, right-to-left, big and clear. Children learn by playing.
- **All 28 letters** — your children learn each letter by sight and by name.
- **Your words, your list** — the Words game uses the words your class is learning, which you add yourself in Setup, each with its English meaning.
- **See every score** — the Teacher area shows who played, which game they played, and how they did.
- **Your own private link** — only people you share it with can open your school page.

The whole page is in Arabic and reads right-to-left, with big buttons and very large Arabic text made for children. There is no app to install. It works on the phones and tablets you already have.

$10/month First month free. No setup fee. Cancel any time.

2. How to buy it

Buying takes three clicks. There is no payment to make on the page today, and your first month is free.

Step 1. Find the Kids Arabic page

Open **yently.com**, tap **More** in the top menu, then **Yently Kids**. Arabic is one of the nine subject rows — $10/month. Tap the blue **“See it →”** button on the right of that row.

Step 2. Add it to your cart

On the Kids Arabic page, tap the gold **“Add to cart — $10/month”** button at the bottom right of the screen.

There is a second way in, on the same page: fill in the **“Get your Kids Arabic page”** form lower down (your name, school name if you have one, email and phone) and tap **“Send request”**. Yently will be in touch to set your school up.

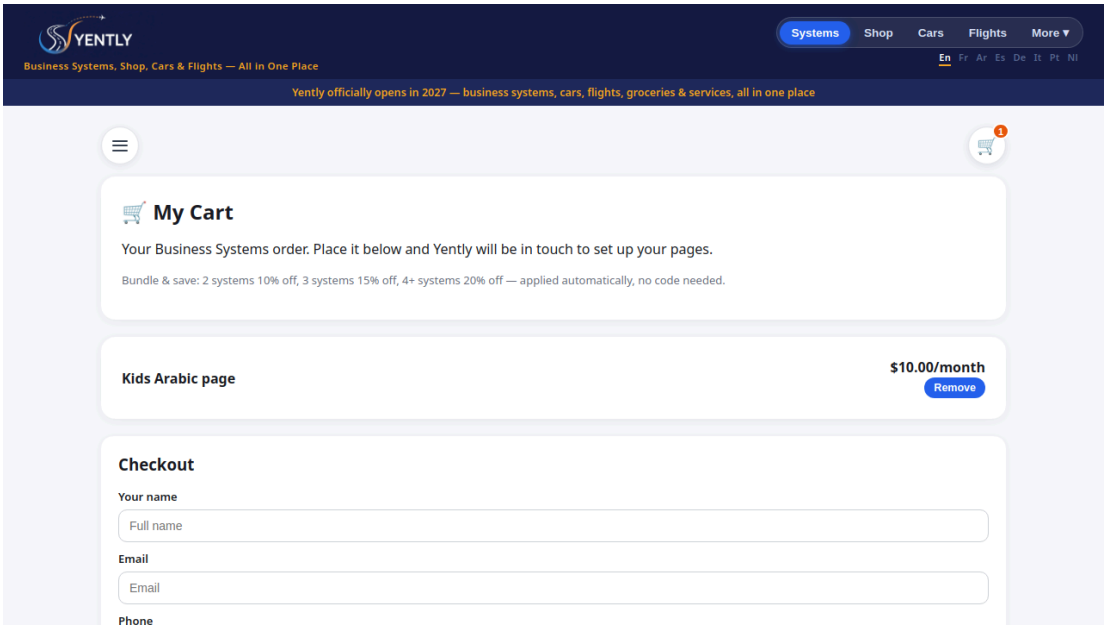

> **Want to see it first?** Tap **“Interested in a demo?”** on the page and Yently will send you the demo link. The demo school is called Demo Arabic, and its students are Alex, Sara and Omar.

Step 3. Check out

Tap **“Go to My Cart”** — or the cart icon at the top right. Fill in the checkout form:

- **Full name**, **Email** and **Phone**.
- **Note (optional)** — your school name and city help Yently set your page up.

Check the total: **List total: $10.00/month** and **Total: $10.00/month**. Then tap the blue **“Place order”** button.

My Cart checkout. Kids Arabic page at $10.00/month, your details, and the blue “Place order” button. No card details are asked for.

Step 4. What happens next

Your order goes to Yently. There is no payment to make on the page today. Yently sets your school up and emails you **your own private link**, plus **your own username and password** and the **teacher password**. Nothing to install, nothing to build.

3. Your first login

Open your private link from the email. The page has **three tabs** at the top: **Play, Teacher, Setup**.

Tap **Setup** and log in with the username and password from your email (the “Setup sign-in” boxes: Username and Password).

> **Two passwords.** Your own Setup login is for you alone. The **teacher password** is one shared password for the Teacher area, where scores are shown. Keep your Setup login to yourself.

4. Set up your school

After you log in to the Setup tab, you will see a note at the top:

> “Your changes are saved as a draft. Visitors still see the approved version until you upload and Yently approves.”

That means you can change things safely. Nothing goes live until you say so and Yently approves it.

Fill in these fields:

- **School name** — the name shown at the top of your page.
- **About text** — a short line about your school, shown under the name.

Your students and your word list are set up on the same tab, just below — see section 5.

When you are done, tap **“Save draft”**. Your changes are saved as a draft — children still see the approved version. When you are happy with everything, tap **“Upload for approval”**. Yently approves it and your changes go live. You will be emailed once they are live.

The Setup tab. Your school details at the top, with the draft note above them. The students list sits below, on the same tab.

5. Add your students and words

In the Setup tab, under **Students**, type a child's name in the box and tap **"+ Add student"**. The name appears on the Play page, so the child can pick it. To remove a student, tap **"Remove"** next to their name, then **"Yes, remove"** to confirm — or **"Keep"** to cancel.

Under **Words**, tap **"+ Add word"**. Each word has two boxes:

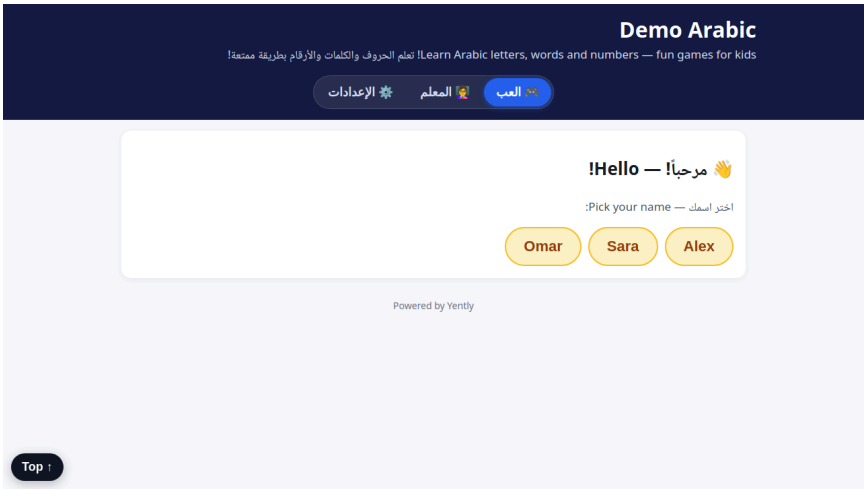

- **Arabic word** — the word in Arabic, as the children will see it.
- **English meaning** — what the word means in English.

You can change a word any time by typing in its boxes. To remove a word, tap **"Remove word"**, then **"Yes, delete"** to confirm — or **"Keep"** to cancel. Only words that have both an Arabic word and an English meaning appear in the Words game.

When you are done, tap **"Save draft"**, then **"Upload for approval"**. Yently approves it and your new students and words go live.

6. Your school page — what children see

Your school name and about text sit at the top of the page. Below them, on the **Play** tab, the child picks their name first:

Pick your name. The child taps their own name — here Alex, Sara and Omar in the demo school — and then picks a game.

Then the child picks a game: **Letters**, **Words** or **Numbers**. Children do not log in — they just pick their name and play.

If a link has no school behind it, the page says “School not found” instead. Check the link and ask Yently for the right one.

7. Playing a game

Every game is **10 rounds**. Each round shows one big question and **four choices** — only one is right:

- **Letters** — a big Arabic letter appears. “What is this letter called?” Pick its name from the four choices.
- **Words** — one of your words appears. “What does this word mean?” Pick the English meaning from the four choices.
- **Numbers** — a number from 1 to 10 appears in Arabic numerals. “What number is this?” Pick the number from the four choices.

Tap an answer. The right one turns **green**, with praise. A wrong answer turns **red**, and the page shows the right answer so the child learns it. Tap **“Next”** for the next round. At the end, the child sees their score out of 10 and can tap **“Play again”**. The score is saved by itself, for the teacher to see.

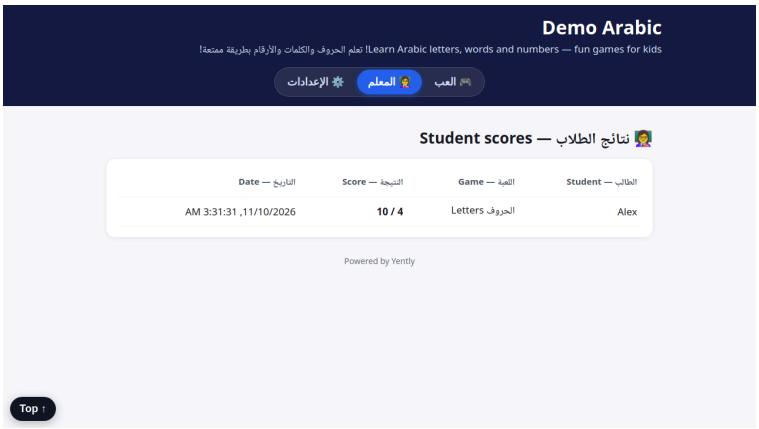

A Letters game in progress. Question 1 of 10: the letter, four names to choose from, the wrong pick in red, the right answer in green, and the score at the top.

8. The Teacher area

Tap the **Teacher** tab. Enter the **teacher password** and tap **“Unlock”**. You will see a table of every finished game:

- **Student** — who played.
- **Game** — Letters, Words or Numbers.
- **Score** — how many out of 10.
- **Date** — when the game was finished.

Scores appear here by themselves, as soon as a child finishes a game. If no child has played yet, the page says: “No scores yet. Scores appear here after a child finishes a game.”

The Teacher tab. Every finished game is one row: the student, the game, the score out of 10, and the date.

9. The teacher password

One shared password unlocks the **Teacher** tab. Every teacher uses the same one, on any device.

The password is **set by Yently** and comes with your setup email. There is no place in Setup to change it yourself — if you want it changed, ask Yently and they will change it for you.

The password is never saved on the device. If the page is reloaded, the teacher enters it again. Tell your teachers the password, and ask Yently to change it if someone leaves.

If a school has no teacher password set, the Teacher tab stays open and anyone can see the scores. Yently sets a password for you, so this does not happen by accident.

10. Add-ons — make it yours for a little more

Each add-on is added the same way as the Kids Arabic page — from its own page, into the same cart:

- **Clean Link — $2/month.** Your own short link, yently.com/your-name, instead of the long one. Easier to print on a poster or share with parents.
- **TV Gallery — $2/month.** Your pictures on the big screen — a slideshow on the TV in your classroom.
- **Live Chat — $3/month.** Chat with visitors right on your page.

> **Bundle & save:** 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off. Your saving is applied automatically, no code needed. Kids subjects count like any other plan.

11. Prices at a glance

Plan	Price	First month
Kids Arabic page	$10/month	Free
Clean Link	$2/month	Free
TV Gallery	$2/month	Free
Live Chat	$3/month	Free

Bundle: 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off — applied automatically. No setup fee. Cancel any time.

All nine Yently Kids subjects together cost $90/month at list price — **$72/month** with the 20% bundle saving.

12. Why Yently

Yently is **$10 a month**, first month free, no setup fee. Cancel any time.

Yently builds it, hosts it, and keeps it running. You just use it. Add your students and words any time, and add another subject — or an add-on — when you want more, for a few dollars a month.

One page per subject, one cart, one login for you and one password for your teachers. Simple, honest pricing: $10/month, first month free, cancel any time.

13. Need help?

Use the **“Get your Kids Arabic page”** form on the Kids Arabic page: fill in your name, school name if you have one, email and phone, write your question in the message box, and tap **“Send request”**. Yently will be in touch to set up your Kids Arabic page.

> **Your first game, in short:** buy it on yently.com → get your link and logins by email → log in to Setup → add your students and words → upload for approval → share the link, the children pick their names and play → check their scores in the Teacher tab.

Thank you for choosing Yently. Your Kids Arabic page is ready when you are — and Yently is one message away if you need a hand.
