YENTLY · YENTLY KIDS

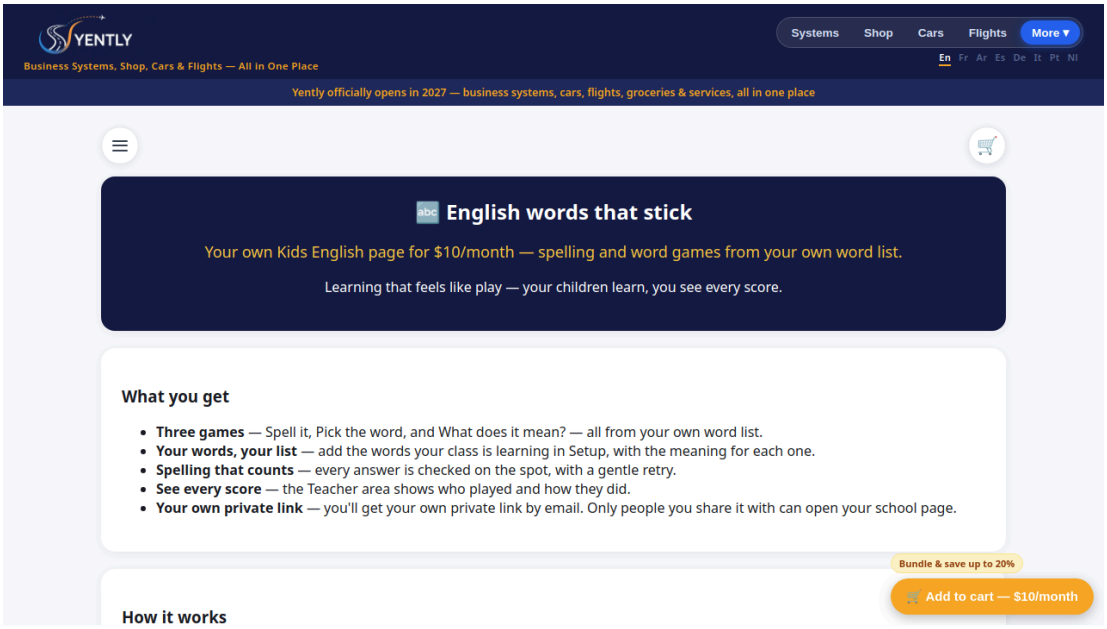

Your Kids English Page
A Step-by-Step Guide

From buying it to your children's first game.

Yently — Everything you need, gently in one place.

November 2026 · For parents and teachers

This guide walks you through your Kids English page from start to finish: how to buy it, how to set up your school, your students and your words, how the three games work, and how you follow every score. Every step shows you exactly where to click.

Your Kids English page. This is the page you buy it from — "your own Kids English page for $10/month", with the gold "Add to cart — $10/month" button at the bottom right.

Keep this guide with your setup email. It covers everything from the first click to the first game, in the order you will do it.

1. What you get

Your Kids English page is your own learning page on the web, built and hosted by Yently. It has three parts:

- **Three games for your children** — Spell it, Pick the word, and What does it mean? — all played from your own word list.
- **Your words, your list** — you add the words your class is learning, with the meaning for each one. The games play from the words you choose.
- **Every score in one place** — the Teacher area shows who played and how they did, game by game.

Children play on their own name. A child taps their name, picks a game, and plays 10 rounds. Every answer is checked on the spot, with a gentle retry — learning feels like play, not a test.

There is no app to install and nothing to download. It works on the phones and tablets you already have.

$10/month First month free. No setup fee. Add more subjects and the price drops — see section 10.

2. How to buy it

Buying takes three clicks. There is no payment to make on the page today, and your first month is free.

Step 1. Find the English page

Open **yently.com** and tap **More** in the top menu, then **Yently Kids**. English is one of the nine subjects — $10/month. Tap the blue **“See it →”** button on the right of that row.

Step 2. Add it to your cart

On the English page, tap the gold **“Add to cart — $10/month”** button. It floats at the bottom right of the screen, and the same button sits in the “Kids English page — $10/month” card on the page.

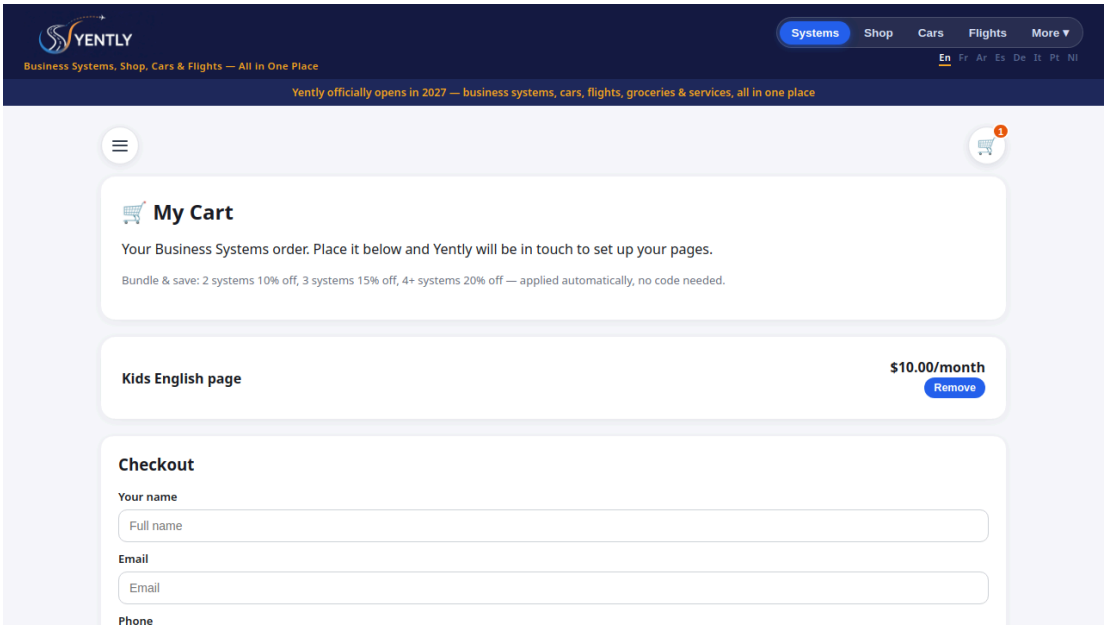

There is a second way in, on the same page: fill in the **“Get your Kids English page”** form lower down (your name, school name, email and phone) and tap **“Send request”**. Yently will be in touch to set your school up.

Step 3. Check out

Tap **“Go to My Cart”** — or the cart icon at the top right. Fill in the checkout form:

- **Full name**, **Email** and **Phone**.
- **Note (optional)** — your school name and anything that helps Yently set your page up.

Check the total: **List total: $10.00/month** and **Total: $10.00/month**. Then tap the blue **“Place order”** button.

My Cart checkout. The Kids English page at $10.00/month, with the checkout form below it — Full name, Email and Phone. No card details are asked for.

Step 4. What happens next

Your order goes to Yently. There is no payment to make on the page today. Yently sets your school up and emails you **your own private link**, plus **your own username and password** and the **teacher password**. Nothing to install, nothing to build.

3. Your first login

Open your private link from the email. The page has **three tabs** at the top: **Play, Teacher, Setup**.

Tap **Setup** and log in with the username and password from your email (the “Setup sign-in” boxes: Username and Password).

> **Two logins.** Your own Setup login is for you alone. The **teacher password** is one shared password for the Teacher area — see section 9. Keep your Setup login to yourself.

A school without its own link shows “School not found” — the page needs your school’s private link. If you open the link and see that message, check the link and try again, or ask Yently for your school link.

4. Set up your school

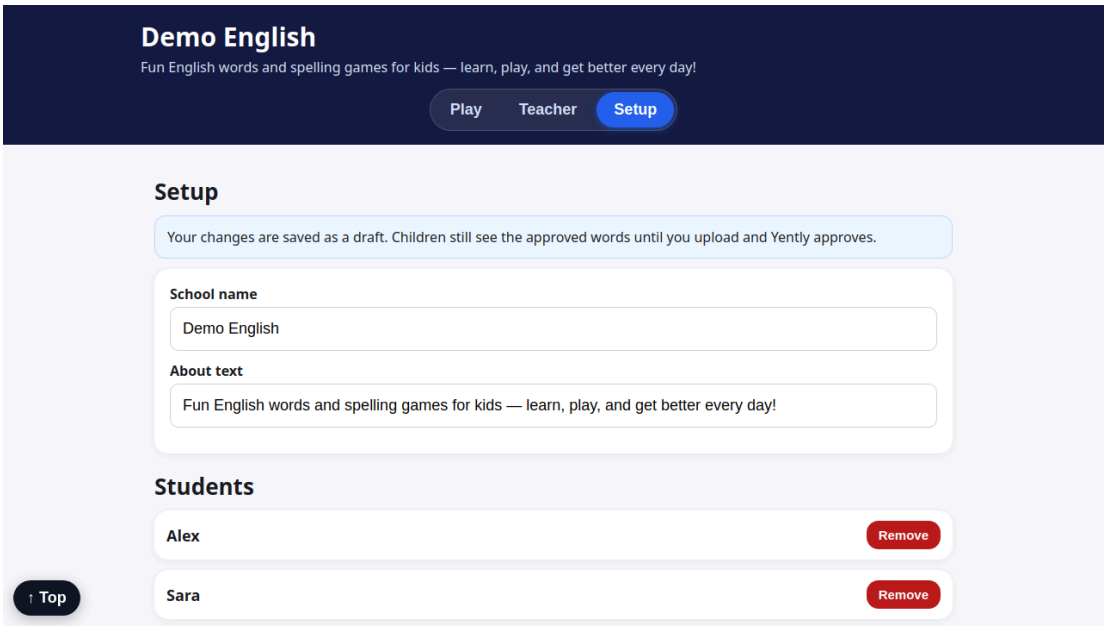

After you log in to the Setup tab, you will see a note at the top:

> “Your changes are saved as a draft. Children still see the approved words until you upload and Yently approves.”

That means you can change things safely. Nothing goes live until you say so and Yently approves it.

Fill in these fields:

- **School name** — the name shown at the top of your page.
- **About text** — a short line about your school, shown under the name.

The Setup tab. Your school details at the top, with the draft note above them. The Students list sits below, on the same tab.

When you are done, tap **“Save draft”**. Your changes are saved as a draft — children still see the approved words. When you are happy with everything, tap **“Upload for approval”**. Yently approves it and your changes go live. You will get an email once they are live.

5. Add your students and words

In the Setup tab, under **Students**, type a name in the “New student name…” box and tap **“+ Add student”**. To remove a student, tap **“Remove”** next to their name.

Under **Words**, tap **“+ Add word”**. A card appears for the word. Fill it in:

- **Word** — the English word.
- **Meaning / hint** — what the word means, in words the children understand. This is what they see while they play.

Add one card per word. You need **at least 4 words** before children can play — the page says so if you try with fewer.

When the list is done, tap **“Save draft”**, then **“Upload for approval”**. Yently approves it and your new words go live.

Change a word or add a student any time, the same way: edit it in Setup, save the draft, upload for approval.

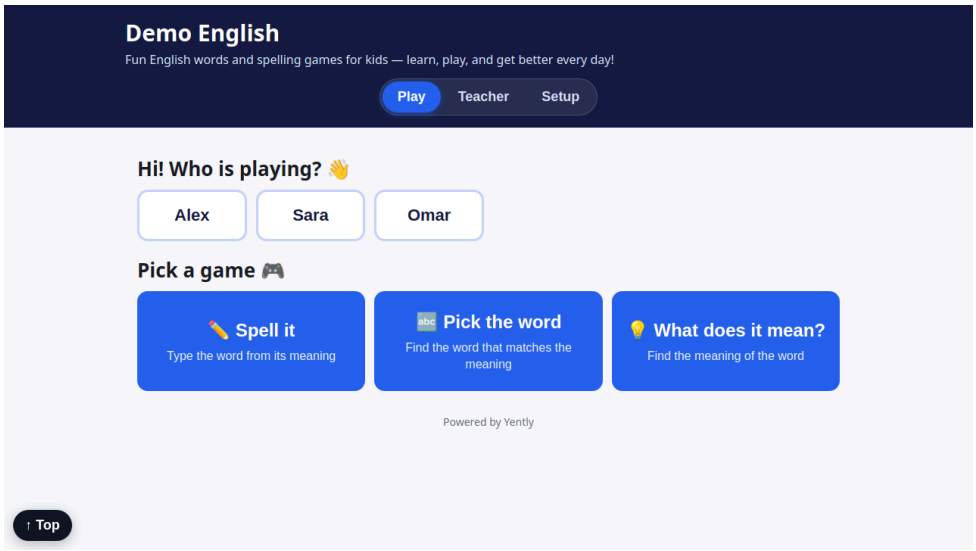

6. Your school page — what children see

Your school name and about text sit at the top of the page, above the three tabs: **Play, Teacher, Setup**.

Children use the **Play** tab. It asks “Hi! Who is playing?” — the child taps their name, then picks a game. That is all a child ever needs to touch.

The Teacher and Setup tabs ask for a password — children cannot open them by accident. See sections 8 and 9.

Try it yourself first: tap “Interested in a demo?” on the page and Yently will send you the demo link. The demo school shows exactly what your school will look like, with three demo students — Alex, Sara and Omar — and a ready-made word list.

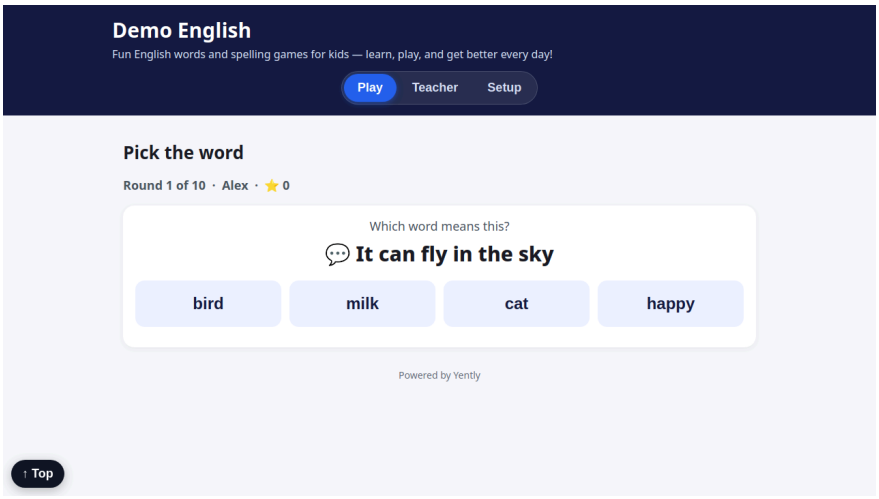

The Play tab. A child taps their name — Alex, Sara or Omar in the demo school — then picks one of the three games: Spell it, Pick the word, or What does it mean?

7. How children play

A game is **10 rounds**. In every round the child answers one question, and the answer is checked on the spot:

- **Spell it** — the child reads a meaning and types the word. “Type the word from its meaning.”
- **Pick the word** — the child reads a meaning and taps the word that matches, from four choices.
- **What does it mean?** — the child reads a word and taps its meaning, from four choices.

A round of Pick the word. Round 1 of 10, Alex is playing: “It can fly in the sky” — bird, milk, cat or happy? The right answer earns a star.

A right answer earns a star and a kind word — “Great job!”, “Well done!”, “You got it!” A wrong answer is gentle too: “Good try! The word is … You will get the next one!”

The score screen. Alex scored 4 / 10 in Pick the word — “Good job! Keep practising!” — with “Play again” and “Pick another game”.

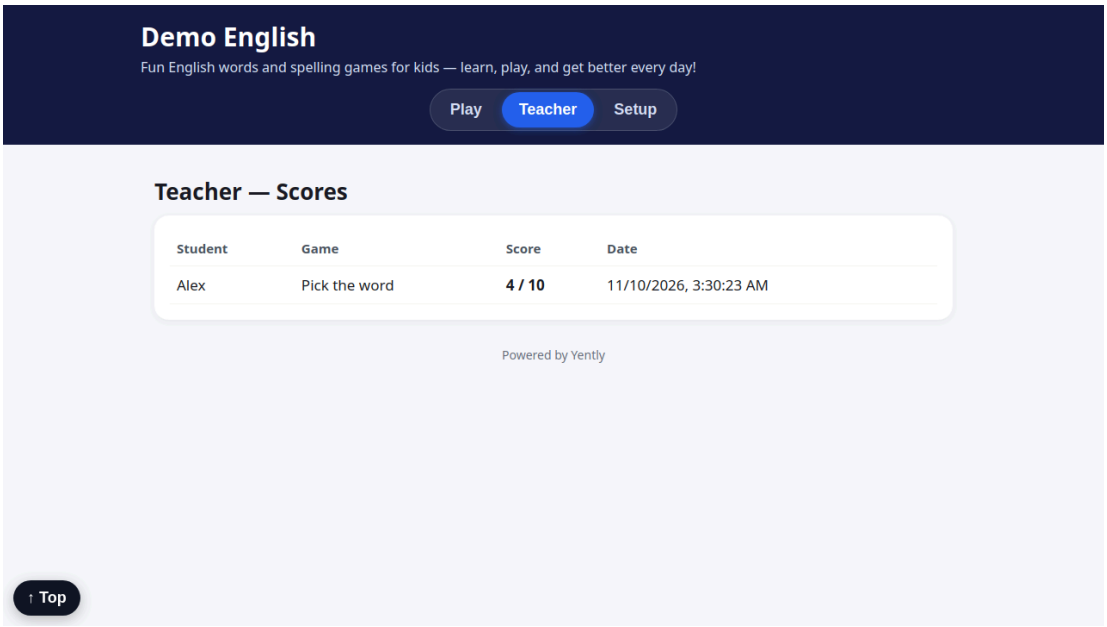

After the tenth round the score screen shows the result out of 10, and a message for the score: a perfect 10 is “Perfect! You are a star!”, 7 or more is “Great work!”, 4 or more is “Good job! Keep practising!” The child can tap **“Play again”** or **“Pick another game”**.

Every finished game saves its score by itself, so the teacher can see it — see section 8.

8. The Teacher area — scores

Tap the **Teacher** tab and enter the teacher password (see section 9). The scores table shows every finished game: **Student, Game, Score** and **Date**.

Scores appear here as soon as a child finishes a game — nothing to collect, nothing to type in.

Teacher — Scores. Alex played Pick the word and scored 4 / 10 on 11/10/2026. Every finished game lands here, with the date.

If no one has played yet, the page says: “No scores yet. Scores appear here once a student finishes a game.”

9. The teacher password

One shared password unlocks the **Teacher** area. Every teacher uses the same one, on any phone.

The password is **set by Yently** and comes with your setup email. There is no place in Setup to change it yourself — if you want it changed, ask Yently and they will change it for you.

The password is never saved on the phone. If the page is reloaded, the teacher enters it again.

If your school has no teacher password set, the Teacher tab stays open and anyone can see the scores. Yently sets a password for you, so this does not happen by accident.

10. Add-ons — make it yours for a little more

Each add-on is added the same way as the English page — from its own page, into the same cart:

- **Clean Link — $2/month.** Your own short link, yently.com/your-name, instead of the long one. Easier to print on a card or share with parents.
- **TV Gallery — $2/month.** Your pictures on the big screen — a slideshow on the TV in your classroom.
- **Live Chat — $3/month.** Chat with visitors right on your page.

> **Bundle & save:** 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off. Your saving is applied automatically, no code needed. Subjects count like any plan — all 9 Kids subjects are $90 a month, or $72 with 20% off.

11. Prices at a glance

Plan	Price	First month
Kids English page	$10/month	Free
Clean Link	$2/month	Free
TV Gallery	$2/month	Free
Live Chat	$3/month	Free

Bundle: 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off — applied automatically. No setup fee.

12. Why Yently

Yently is **$10 a month**, first month free, no setup fee. Yently builds it, hosts it, and keeps it running. You just use it.

Add your students and words any time, add another subject when you want more, and the price drops as you add plans. Cancel any time.

13. Need help?

Use the **“Get your Kids English page”** form on the English page: fill in your name, school name, email and phone, write your question in the message box, and tap **“Send request”**. Yently will be in touch to set up your Kids English page.

> **Your first game, in short:** buy it on yently.com → get your link and login by email → log in to Setup → add your students and words → upload for approval → share the link and the children start playing.

Thank you for choosing Yently. Your Kids English page is ready when you are — and Yently is one message away if you need a hand.
