YENTLY · YENTLY KIDS

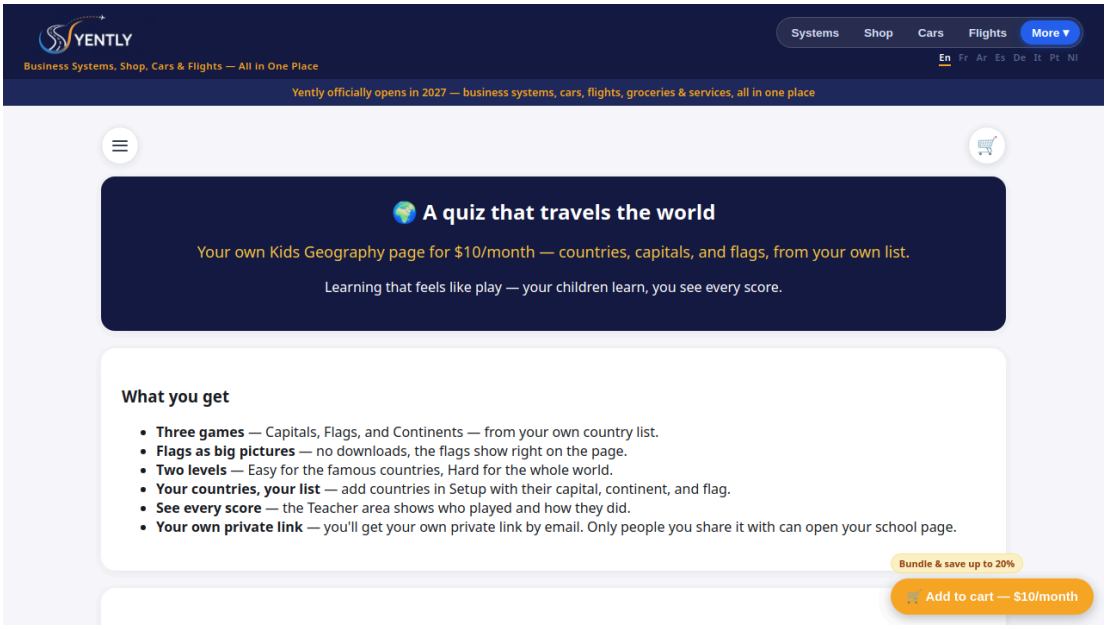

Your Kids Geography Page A Step-by-Step Guide

From buying it to your children's first game.

Yently — Everything you need, gently in one place.

November 2026 · For parents and teachers

This guide walks you through your Kids Geography page from start to finish: how to buy it, how to set up your school, your students and your countries, how your children play, and how the Teacher area shows every score. Every step shows you exactly where to click.

Your Kids Geography page. This is the page parents see the offer on — and the page you buy it from. The gold button at the bottom right adds it to your cart.

Keep this guide with your setup email. It covers everything from the first click to the first game, in the order you will do it.

1. What you get

Your Kids Geography page is your own geography quiz school on the web, built and hosted by Yently. It has three parts:

- **Your own school page** — your school's name, your students and your own list of countries, on your own private link.
- **Three games your children play** — Capitals, Flags and Continents, in 10 rounds, at two levels: Easy for the famous countries, Hard for the whole world.
- **A Teacher area that shows every score** — who played, which game they played, and how they did.

Children play on the page itself — nothing to download, nothing to install. In the Flags game, the flags show as big pictures right on the page.

Play is open for your children. The Teacher area needs the teacher password, and Setup needs your own login. That keeps the games open and the grown-up parts private.

$10/month First month free. No setup fee. Cancel anytime.

2. How to buy it

Buying takes three clicks. There is no payment to make on the page today, and your first month is free.

Step 1. Find the Geography page

Open **yently.com** and tap **More** in the top menu, then **Yently Kids**. Geography is one of the nine subjects — $10/month. Tap the blue **“See it”** button on the Geography row.

Step 2. Add it to your cart

On the Geography page, tap the gold **“Add to cart — $10/month”** button at the bottom right of the screen.

There is a second way in, on the same page: fill in the **“Get your Kids Geography page”** form lower down (your name, school name if you have one, email and phone) and tap **“Send request”**. Yently will be in touch to set your school up.

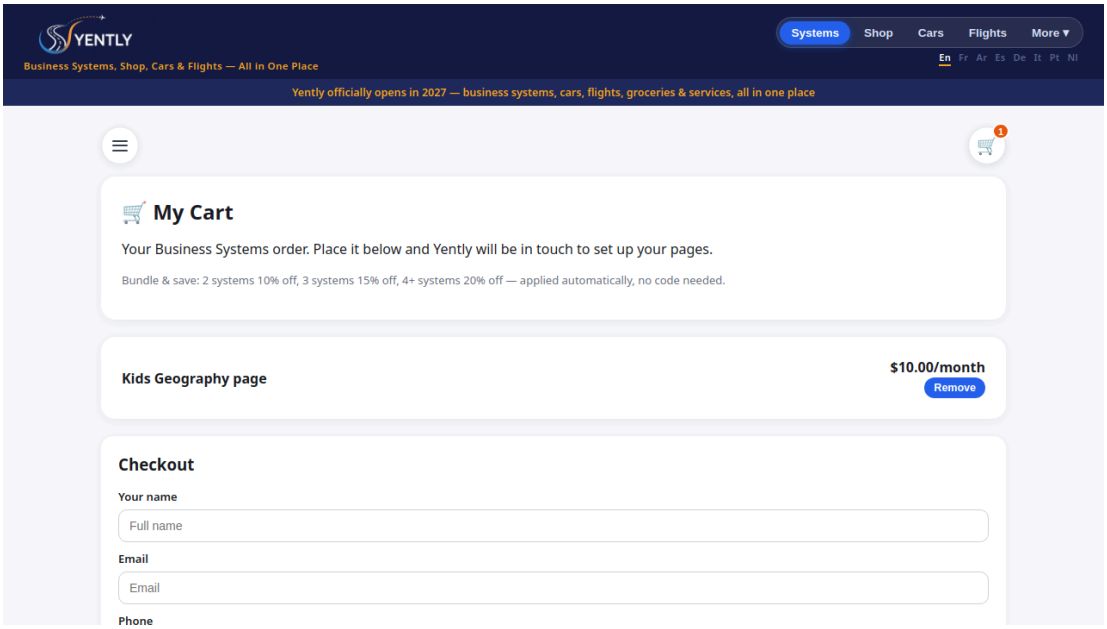

> **Want to see it working first?** Tap “Interested in a demo?” on the Geography page and Yently will send you the demo school link, so you can try the games before you buy.

Step 3. Check out

Tap **“Go to My Cart”** — or the cart icon at the top right. Fill in the checkout form:

- **Full name**, **Email** and **Phone**.
- **Note (optional)** — your school name and anything that helps Yently set your page up.

Check the total: **List total: $10.00/month** and **Total: $10.00/month**. Then tap the blue **“Place order”** button.

My Cart. Your Kids Geography page at $10.00/month, and the checkout form with your name, email and phone. No card details are asked for.

Step 4. What happens next

Your order goes to Yently. There is no payment to make on the page today. Yently sets your school up and emails you **your own private link**, plus **your own username and password**, and the **teacher login**. Nothing to install, nothing to build.

3. Your first login

Open your private link from the email. The page has **three tabs** at the top: **Play, Teacher, Setup**.

Tap **Setup** and log in with the username and password from your email (the “Setup sign-in” boxes: Username and Password).

> **Two logins.** Your own Setup login is for you alone. The **teacher password** is one shared password for the Teacher area — for you and any other teacher. Keep your Setup login to yourself.

4. Set up your school

After you log in to the Setup tab, you will see a note at the top:

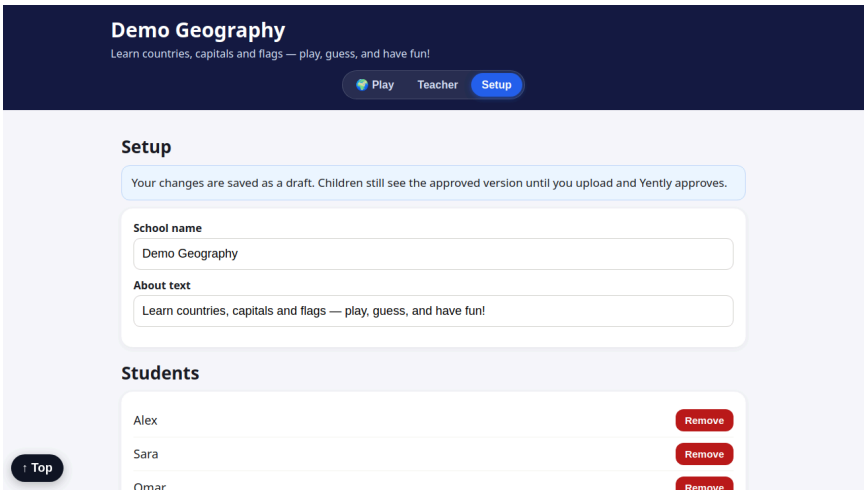

> “Your changes are saved as a draft. Children still see the approved version until you upload and Yently approves.”

That means you can change things safely. Nothing goes live until you say so and Yently approves it.

Fill in these fields:

- **School name** — the name shown at the top of your page.
- **About text** — a short line about your school, shown under the name.

Your students and your countries are on the same tab, just below — see sections 5 and 6.

The Setup tab. Your school details at the top, with the draft note above them. Your students sit below, on the same tab.

When you are done, tap **“Save draft”**. Your changes are saved as a draft — children still see the approved version. When you are happy with everything, tap **“Upload for approval”**. Yently approves it and your changes go live. You will get an email once they are live.

5. Add your students

Under **Students**, type a child’s name in the box and tap **“+ Add student”**. One line per child. To remove a child, tap **“Remove”** on their line.

The names you add are the names children pick from when they play. A child who is not on the list cannot play — add them first.

6. Add your countries

Under **Countries**, tap **“+ Add country”**. A card appears for the country. Fill it in:

- **Country name** — the name of the country.
- **Capital** — its capital city.
- **Continent** — pick one of the six: Africa, Asia, Europe, North America, South America, Oceania.
- **Flag emoji** — the country’s flag emoji, for example the French flag.
- **Easy** — tick this box for the well-known countries. The Easy level only uses ticked countries.

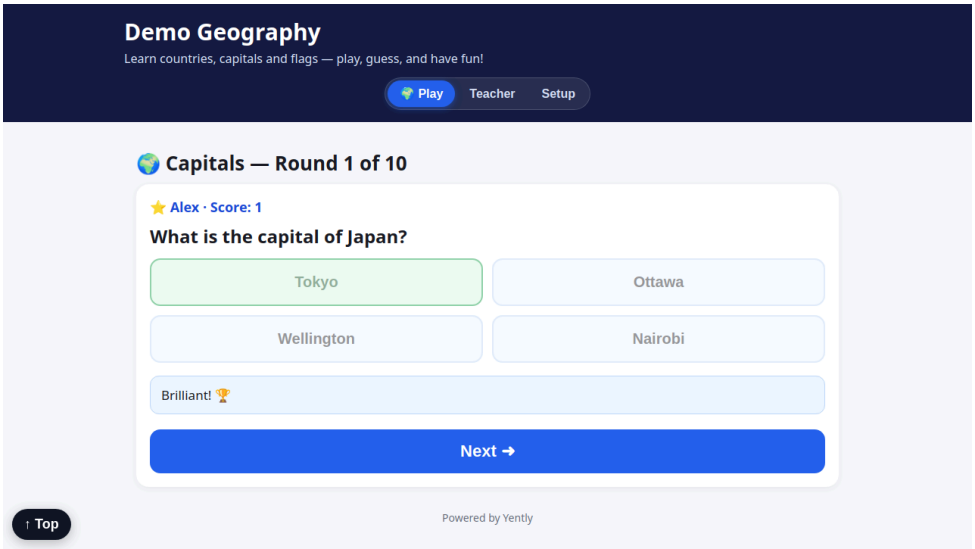

Add one card per country. To remove a country, tap **“Remove country”** on its card. You need at least four countries before children can play.

When the list is done, tap **“Save draft”**, then **“Upload for approval”** — the same as for your school details.

7. Play — what your children see

Play is open — no login. A child opens your private link and the Play tab is already there:

1. Pick your name from the list. The name is remembered on the device, so next time it is already picked.
2. Pick a game — **Capitals**, **Flags** or **Continents** — and a level — **Easy** or **Hard**. Easy uses only the countries you ticked Easy; Hard uses every country on your list.
3. Tap **“Start playing!”** and play 10 rounds. Each round shows a question and four answers. In Flags, the flag shows as a big picture.
4. Tap an answer. The right one turns green, and a cheerful message tells your child how they did. Tap **“Next”** for the next round.
5. At the end, the score shows — for example 8 / 10. The score is saved by itself, so it appears in the Teacher area.

Play in action. Alex is playing Capitals, Round 1 of 10 — “What is the capital of Japan?” Tokyo is the right answer, and the game says “Brilliant!”

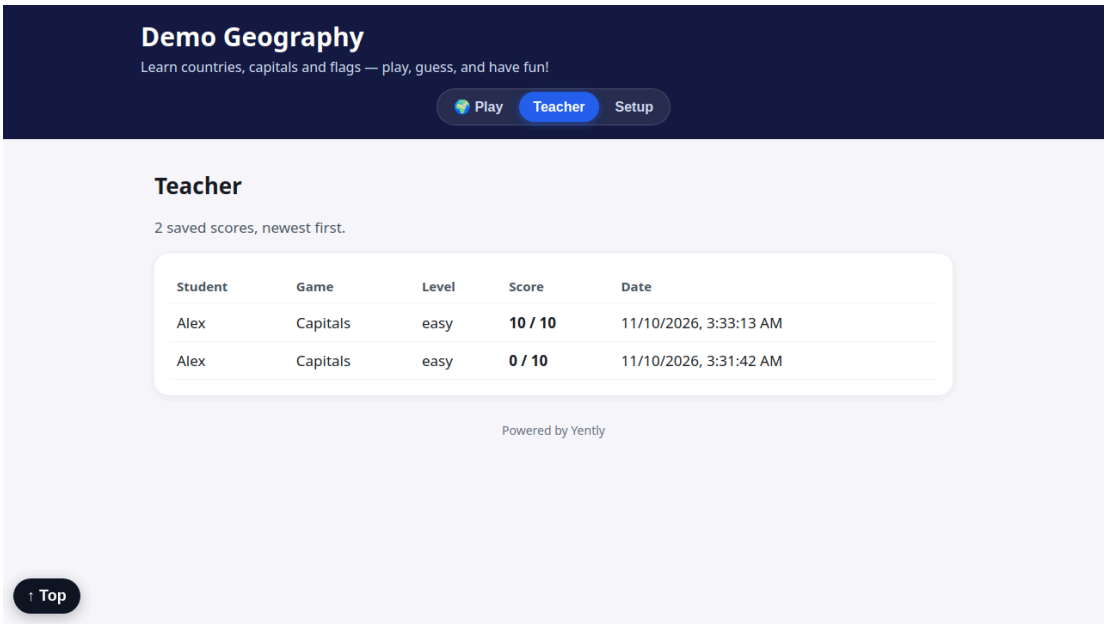

If there are no students yet, the page says so and asks the teacher to add students in Setup. If there are fewer than four countries, it asks the teacher to add more.

8. The Teacher area

Tap the **Teacher** tab and enter the teacher password. You will see every score your children have saved, newest first:

- **Student** — who played.
- **Game** — Capitals, Flags or Continents.
- **Level** — Easy or Hard.
- **Score** — for example 10 / 10.
- **Date** — when they played.

Every game a child finishes adds one row. Play again and the new score appears above the old ones — you can watch each child improve over time.

The Teacher area. Every saved score, newest first — student, game, level, score and date. Here Alex played Capitals (Easy) twice.

If no one has played yet, the page says: “No scores saved yet. Once students play a game, their scores will appear here.”

9. The teacher password

One shared password unlocks the **Teacher** area. Every teacher uses the same one, on any phone.

The password is **set by Yently** and comes with your setup email. There is no place in Setup to change it yourself — if you want it changed, ask Yently and they will change it for you.

The password is never saved on the phone. If the page is reloaded, the teacher enters it again. Tell your teachers the password, and ask Yently to change it if someone leaves.

If your school has no teacher password set, the Teacher area stays open and anyone can see the scores. Yently sets a password for you, so this does not happen by accident.

10. Add-ons — make it yours for a little more

Each add-on is added the same way as the Geography page — from its own page, into the same cart:

- **Clean Link — $2/month.** Your own short link, yently.com/your-name, instead of the long one. Easier to print or share with parents.
- **TV Gallery — $2/month.** Your pictures on the big screen — a slideshow on the TV in your classroom.
- **Live Chat — $3/month.** Chat with visitors right on your page.

> **Bundle & save:** 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off. Your saving is applied automatically, no code needed.

11. Prices at a glance

Plan	Price	First month
Kids Geography page	$10/month	Free
Any other Kids subject	$10/month	Free
Clean Link	$2/month	Free
TV Gallery	$2/month	Free
Live Chat	$3/month	Free

Bundle: 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off — applied automatically. All nine Kids subjects are $90 a month — with 20% off, $72 a month. No setup fee. Cancel anytime.

12. Why Yently

Yently is **$10 a month** for this subject, first month free, no setup fee. You keep it as long as you want, and cancel anytime.

Yently sets it up for you and emails you your link and logins. There is nothing to install and nothing to build — you just add your students and countries and share the link.

Add your students and countries any time, and add another subject or an add-on when you want more, for a few dollars a month.

13. Need help?

Use the **“Get your Kids Geography page”** form on the Geography page: fill in your name, school name if you have one, email and phone, write your question in the message box, and tap **“Send request”**. Yently will be in touch to set up your Kids Geography page.

> **Your first game, in short:** buy it on yently.com → get your link and logins by email → log in to Setup → add your students and countries → upload for approval → share the link and the children start playing.

Thank you for choosing Yently. Your Geography page is ready when you are — and Yently is one message away if you need a hand.
