YENTLY · YENTLY KIDS

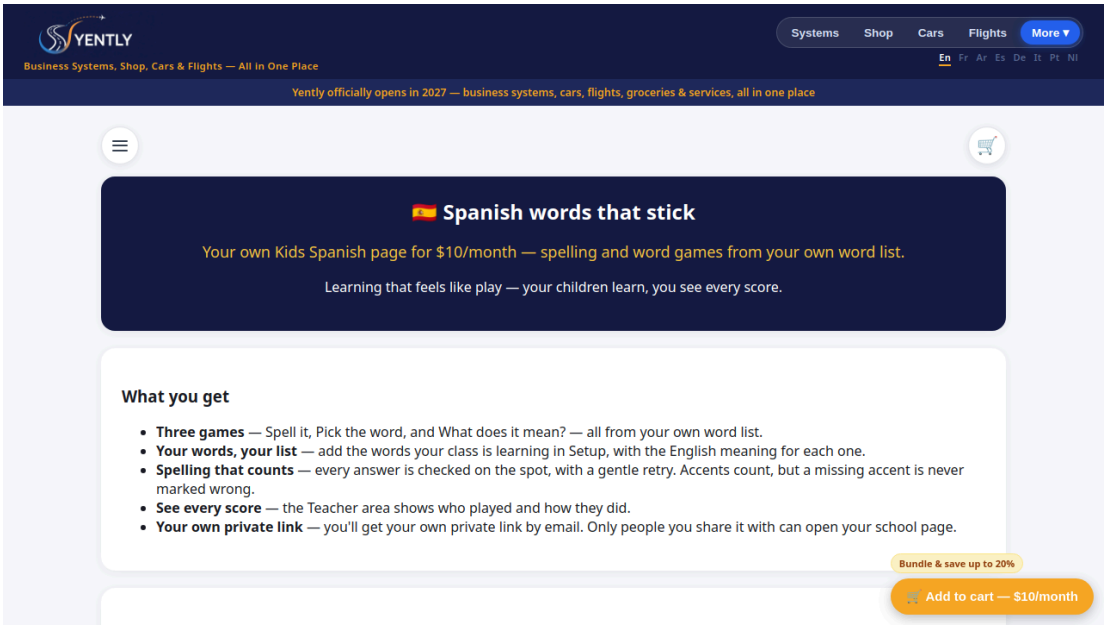

Your Kids Spanish School A Step-by-Step Guide

From buying it to your child's first game.

Yently — Everything you need, gently in one place.

November 2026 · For parents and teachers

This guide walks you through your Kids Spanish school from start to finish: how to buy it, how to add your students and your words, how the three games work, and how the teacher sees every score. Every step shows you exactly where to click.

Your Kids Spanish page. This is the page you buy it from — the gold button at the bottom right adds it to your cart.

Keep this guide with your setup email. It covers everything from the first click to the first game, in the order you will do it.

1. What you get

Your Kids Spanish school is your own Spanish games page on the web, built and hosted by Yently. It has three parts:

- **Your own school page** — your school's name, your students and your word list, on your own private link.
- **Three games for the children** — Spell it, Pick the word, and What does it mean? — all from your own word list.
- **Scores for the teacher** — every finished game is saved, so you can see who played and how they did.

Children play on the phones or tablets you already have. There is no app to install and nothing to download. The games run in the browser, in Spanish, with the instructions in English.

Spelling that counts. Every answer is checked on the spot, with a gentle retry. A missing accent is never marked wrong — árbol and arbol both count.

$10/month First month free. No setup fee. Add more subjects any time — every subject is $10/month, and the bundle saving applies automatically.

> **Try it first.** Tap “Interested in a demo?” on the page and Yently will send you the demo link. Play as Alex, Sara or Omar and look at the Teacher tab and the Setup tab. Your school will work the same way, with your words.

2. How to buy it

Buying takes three clicks. There is no payment to make on the page today, and your first month is free.

Step 1. Find the Spanish subject

Open **yently.com** and tap **More** in the top menu, then **Yently Kids**. Spanish is one of the nine rows — $10/month. Tap the blue **“See it →”** button on the right of that row.

Step 2. Add it to your cart

On the Spanish page, tap the gold **“Add to cart — $10/month”** button at the bottom right of the screen.

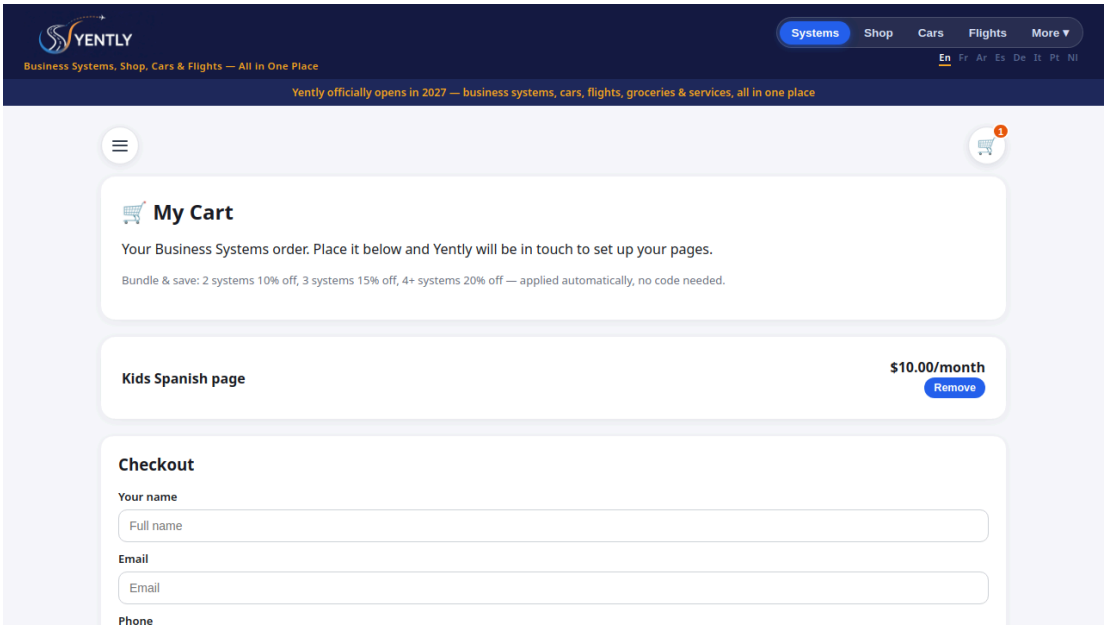

There is a second way in, on the same page: fill in the **“Get your Kids Spanish page”** form lower down (your name, school name if you like, email and phone) and tap **“Send request”**. Yently will be in touch to set up your Kids Spanish page.

Step 3. Check out

Tap **“Go to My Cart”** — or the cart icon at the top right. Fill in the checkout form:

- **Full name**, **Email** and **Phone**.
- **Note (optional)** — your school name and city help Yently set your page up.

Check the total: **$10.00/month**. Then tap the blue **“Place order”** button.

My Cart checkout. Your Kids Spanish page at $10.00/month, the bundle saving line, and your details. No card details are asked for.

Step 4. What happens next

Your order goes to Yently. There is no payment to make on the page today. Yently sets your school up and emails you **your own private link**, plus **your own username and password** and the **teacher password**. Nothing to install, nothing to build.

3. Your first login

Open your private link from the email. The page has **three tabs** at the top: **Play, Teacher, Setup**.

Tap **Setup** and log in with the username and password from your email (the “Setup sign-in” boxes: Username and Password).

> **Two passwords.** Your own Setup login is for you alone. The **teacher password** is one shared password for the Teacher tab. Keep your Setup login to yourself.

If the link is wrong, the page says “School not found” — check the link and try again, or ask Yently for your school link.

4. Set up your school

After you log in to the Setup tab, you will see a note at the top:

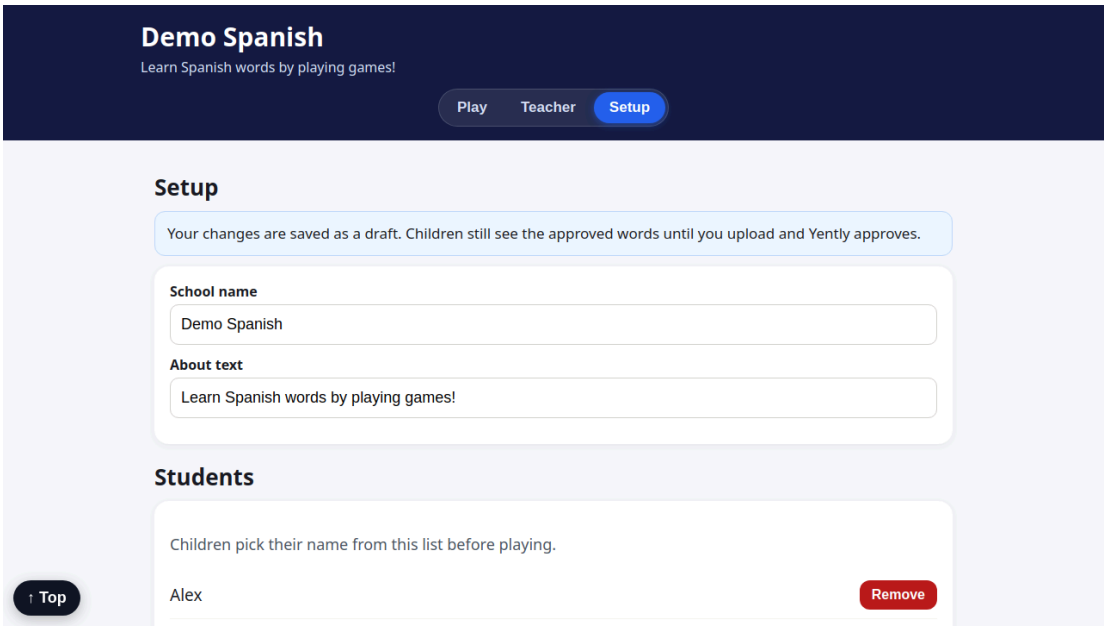

“Your changes are saved as a draft. Children still see the approved words until you upload and Yently approves.”

That means you can change things safely. Nothing goes live until you say so and Yently approves it.

Fill in these fields:

- **School name** — the name shown at the top of your page.
- **About text** — a short line about your school, shown under the name.

Then add your students and your words — see section 5.

The Setup tab. Your school details at the top, with the draft note above them. The students section sits below.

5. Add your words

In the Setup tab, under **Words**, tap **“+ Add word”**. A card appears for the word. Fill it in:

- **Spanish word** — the Spanish word.
- **English meaning** — what it means in English.

Add one card per word. To remove a word, tap **“Remove word”** on its card. You need **at least 4 words** before the games can be played — with fewer than 4, a game says there are not enough words yet.

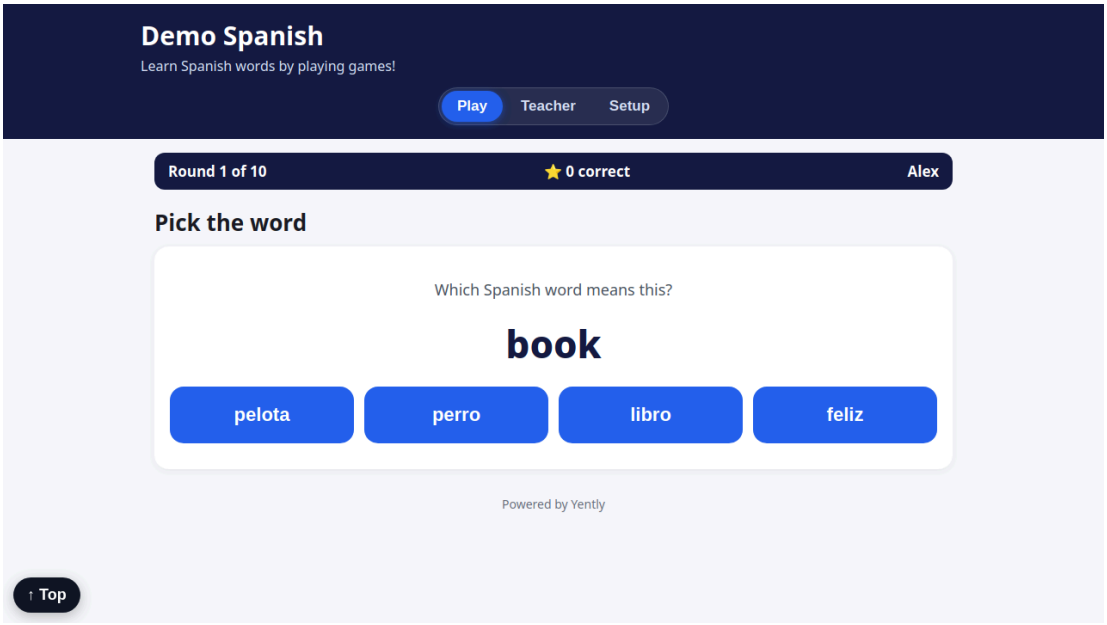

Add students the same way, under **Students**: type a name and tap **“+ Add student”**. Children pick their name from this list before playing. To remove a student, tap **“Remove”** next to their name.

When you are done, tap **“Save draft”**. Your changes are saved as a draft — children still see the approved words. When you are happy with everything, tap **“Upload for approval”**. Yently approves it and your changes go live. You will get a confirmation once they are live.

6. How children play

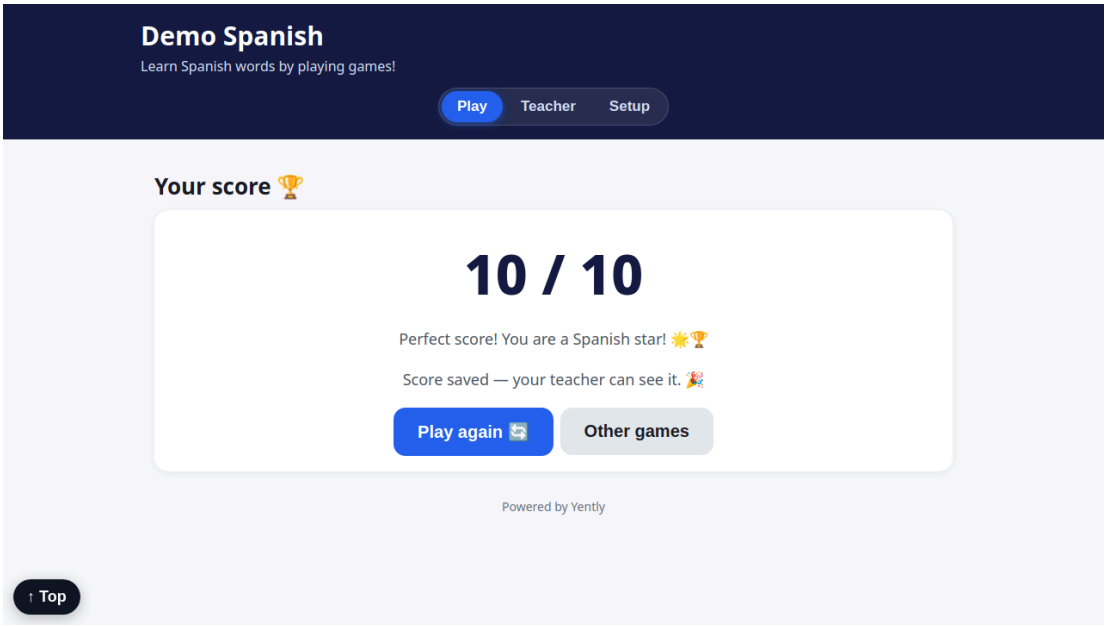

Children play on the **Play** tab. It works like this:

1. **Tap your name.** The child taps their own name from the student list. The page remembers the name on that device, so next time it greets them by name. Not the right name? Tap **“Change name”**.
2. **Pick a game.** Three games, 10 rounds each:
   - **Spell it** — see the English word, type the Spanish word.
   - **Pick the word** — see the English word, pick the right Spanish word from four choices.
   - **What does it mean?** — see the Spanish word, pick the right English meaning from four choices.
3. **Every answer is checked on the spot.** A right answer gets a cheer; a wrong answer shows the right answer, so the child learns it at once. Then tap **“Next”** for the next round.
4. **The score bar** at the top shows the round (Round 1 of 10), how many are right so far, and who is playing.

Pick the word, in the demo school. Alex is playing round 1 of 10: the English word is “book”, and the four Spanish choices are pelota, perro, libro and feliz.

After 10 rounds, the score screen shows the result — for example 10 / 10 — with a message for the child, and the score is saved so the teacher can see it. Tap **“Play again”** to play the same game again, or **“Other games”** to pick a different game.

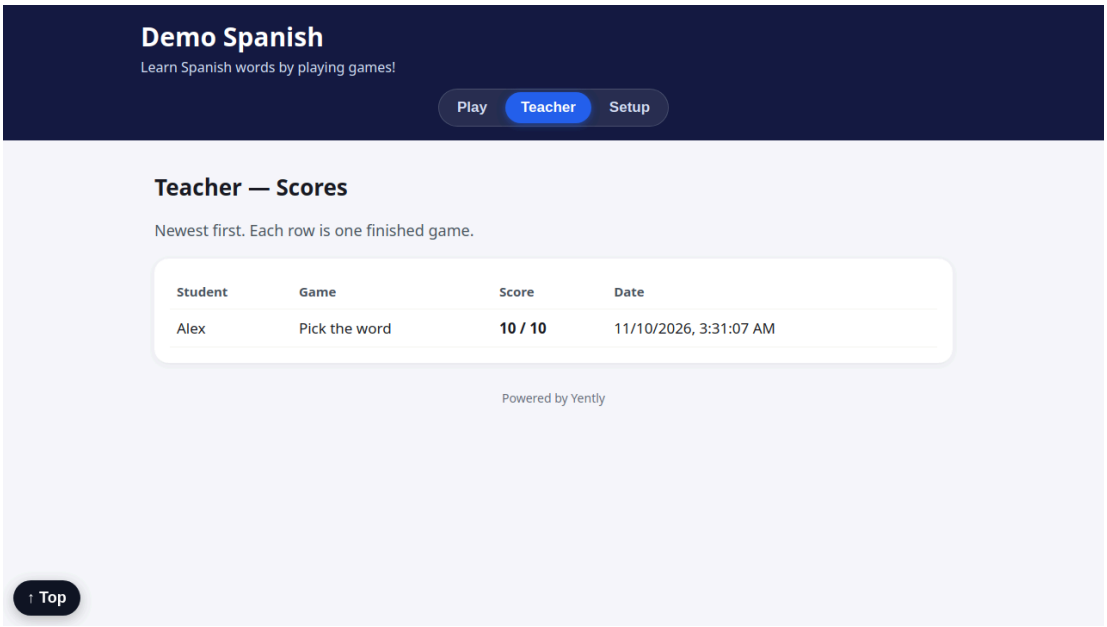

Your score. A perfect 10 / 10 in the demo school, and the score is saved for the teacher.

7. Scores — what the teacher sees

Tap the **Teacher** tab. Enter the teacher password and tap **“Unlock”** to see the scores.

The scores table is **newest first**. Each row is one finished game: **Student, Game, Score, Date**.

If nobody has finished a game yet, the page says: “No scores yet. Once a student finishes a game, their score shows here.”

Teacher — Scores. Alex finished “Pick the word” with 10 / 10. Each row is one finished game, newest first.

8. The teacher password

One shared password unlocks the **Teacher** tab. Every teacher uses the same one, on any phone.

The password is **set by Yently** and comes with your setup email. There is no place in Setup to change it yourself — if you want it changed, ask Yently and they will change it for you.

The password is never saved on the phone. If the page is reloaded, the teacher enters it again. Tell your teachers the password, and ask Yently to change it if someone leaves.

If your school has no teacher password set, the Teacher tab stays open and anyone can see the scores. Yently sets a password for you, so this does not happen by accident.

9. Add-ons — make it yours for a little more

Each add-on is added the same way as the Spanish subject — from its own page, into the same cart:

- **Clean Link — $2/month.** Your own short link, yently.com/your-name, instead of the long one. Easier to print on a card or a window.
- **TV Gallery — $2/month.** Your pictures on the big screen — a slideshow on the TV in your classroom.
- **Live Chat — $3/month.** Chat with visitors right on your page.

Bundle & save: 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off. Your saving is applied automatically, no code needed.

10. Prices at a glance

Plan	Price	First month
Kids Spanish school	$10/month	Free
Clean Link	$2/month	Free
TV Gallery	$2/month	Free
Live Chat	$3/month	Free

Bundle: 2 plans 10% off, 3 plans 15% off, 4 or more plans 20% off — applied automatically. All nine Kids subjects are $90/month together, or $72/month with the 20% bundle saving. No setup fee.

11. Why Yently

Yently is **$10 a month**, first month free, no setup fee. Cancel any time.

Yently sets your school up and emails you the link and login. Nothing to install, nothing to build. You just use it. Change your words any time, and add another subject when you want more, for $10 a month.

12. Need help?

Use the **“Get your Kids Spanish page”** form on the Spanish page: fill in your name, school name if you like, email and phone, write your question in the message box, and tap **“Send request”**. Yently will be in touch to set up your Kids Spanish page.

> **Your first game, in short:** buy it on yently.com → get your link and login by email → log in to Setup → add your students and words → upload for approval → children tap their name and play.
